

## NAVY IS PREPARED FOR IMMEDIATE WAR

### President Makes Declaration in Address in Chicago

## NAVY IS INADEQUATE

### In Speaking of Preparedness Executive States Administration Means Business

## OUTLINES DETAILS OF PLANS

CHICAGO, Jan. 31.—The United States has made preparations for immediate war as far as the navy is concerned, although the present naval force is inadequate in size, President Wilson declared tonight in an address before several thousand persons in the auditorium here.

"We mean business," he said speaking of the preparedness plans of the administration.

"We have given to the present fleet of the United States an organization such as it never had before, I am told by Admiral Fletcher," the president said. "And we have made preparation for immediate war, so far as the navy is concerned."

The army, the president said, as at present constituted, "is not large enough even for the ordinary duties of peace."

The president repeated his warnings that no time must be lost in strengthening the defense of the nation. He declared the government was doing everything it could for preparedness.

"When I see some of my fellow citizens spread tender where the sparks are falling I wonder what their idea of Americanism is," the president said.

### America Cruelly Misjudged.

America, the president said, had been cruelly misjudged by the nations now at war.

"I know that on the other side of the water there has been a great deal of cruel misjudgment with regard to the reasons why America has remained neutral. Those looking at us from a distance do not feel the strong pulses of ideals and principles that are in us.

"They do not feel the conviction of America that our mission is a mission of peace and that righteousness can not be maintained as a standard in the midst of arms. They do not realize that back of all our energy we are a body of idealists much more ready to lay down our lives for a thought than for a dollar.

"They suppose some of them, that we are holding off because we can make money while others are dying, the most cruel misunderstanding that any nation has ever had to face—so wrong that it seems almost useless to try to correct it because it shows the very fundamentals of our lives are not comprehended or understood.

### Rulers Brought About War.

"Rulers, not public opinion, brought about the present war," Mr. Wilson declared.

"I thank God there is no man in the United States who has the authority to bring on war without the consent of the nation," he said.

"The task of the United States, he said, has been to assert the principles of law in a world.

"We are not now thinking of invasion of the territory of the United States," the president declared, "that is not what is making us think. We are not asking ourselves shall we be prepared only to defend our own homes and our own shores. Is that what we stand for? To keep the door shut securely against our enemies? What about the great trusteeship set up for liberty of the national government in the whole western hemisphere? We stand pledged to see that both the continents of America are left free to be used by their people as those people choose to use them under a system of national popular sovereignty as absolutely unchallenged as our own.

"At this moment the Americas are growing together upon that handsome privilege of reciprocal respect and defense."

Detailed plans for strengthening the army and navy, and the aviation corps and for making munitions and armament by the government were outlined. The president spoke nearly an hour.

### Crowds Line Streets.

Crowds lined the two blocks from the president's hotel to the Auditorium theater where his speech was delivered. Along Michigan boulevard the sidewalks were thronged with persons hoping to catch a glimpse of President Wilson as he was driven from the Blackstone hotel to the Auditorium.

Along Congress street and along Wabash avenue, on which streets the Auditorium theater faces, the crowds were no less dense. Detectives and policemen in extra force were everywhere about the district.

A detail of mounted officers preceded the president's automobile

## FOUR ARE MURDEROUSLY ATTACKED ON HIGHWAY

### DEPUTY SHERIFF GUARDS HOME OF ONE OF SURVIVORS

Mrs. Agnes M. Teiper and a Son Are Killed Outright and Another Son Has a Severe Contusion on the Forehead.

Buffalo, Jan. 31.—Under orders from the district attorney a deputy sheriff was on guard tonight at the home of John Edward Teiper, one of the two surviving members of an automobile party of four who were murdered on the highway between Buffalo and Orchard Park early today.

The victims were Teiper's mother, Mrs. Agnes M. Teiper, a widow, 67 years old; his brother, Frederick C., 26 years old, an engineer on structural work, both of whom were killed outright and Miss Grace J. Teiper, a sister, who is dying.

John Edward Teiper has a severe contusion on the forehead. He will be brought to Buffalo as a material witness when his condition improves, the district attorney announced.

In a sworn statement tonight to the district attorney Teiper asserted that the attack was made by a man, apparently a negro, while he and his brother were attempting to repair his automobile which was stalled.

Teiper said he was examining the engine, when he heard a warning cry from his brother. He turned to find a strange man and a moment later he was knocked unconscious by a blow on the head. When he regained his senses, he said, he found his mother, sister and brother apparently dead and he started toward the nearest farm house to summon help.

The double murder occurred about midnight on a lonely stretch of the highway.

Sheriff Strenzel found a hammer and an iron tire tool on the roadway near the automobile. The sheriff said there were blood stains on them. In a field nearby was a revolver containing four empty shells and one loaded shell. Once during the day Grace Teiper showed a sign of returning consciousness. She was asked:

"Who did the shooting?" and replied: "Nobody," and immediately relapsed into unconsciousness.

Casper Teiper, the husband and father, died in 1906, leaving an estate appraised at \$125,000. His will provided that at the mother's death the property was to be divided equally among the four children. Charles H. was called home from New York today by the tragedy.

## MARINES CATCH FOUR WHITE MEN LOOTING IN OTAY VALLEY

SAN DIEGO, Cal., Jan. 31.—United States marines were reported late today to have caught four white men looting in the Otay Valley, the district which has suffered the greatest loss of life and the heaviest property damage as the result of San Diego county's floods. Two of the men were turned over to the civil authorities. The other two, it was said, were run on, of the valley at the point of bayonets.

Today's arrests were the first to be made since Rear-Admiral Fullam, commanding the Pacific reserve fleet, received reports yesterday that armed Mexicans were looting in the valley and ordered sailors and marines engaged in relief work there to "shoot looters on the spot."

At a meeting of city officials and business men here today it was decided to try to raise a relief fund of \$100,000. Tonight subscriptions to the fund totaled \$39,000.

## CONSERVATION FORCES LINE UP FOR FIGHT ON WATERPOWER BILLS

WASHINGTON, Jan. 31.—Conservation forces are lining up for a fight on the waterpower bills as they now stand in the senate. The chief fight is to be made on the Shields bill for the disposal of waterpower sites on navigable streams, but some conservationists also are making an attack on the senate amendments to the Ferris bill for leasing water power sites on the public domain.

A minority of the senate lands committee filed a report today protesting against the bill which the senate committee substituted for the Ferris bill as it passed the house. At the same time Clifford Finchot made public an open letter to President Wilson in which he appealed to the president to use his influence for the bill as it has twice passed the house.

## WOULD BUY LOWER CALIFORNIA

Washington, Jan. 31.—The president would be authorized to negotiate with the Carranza government for the purchase of lower California by a resolution introduced today by Representative Britton of Illinois. He said such a purchase would put into the hands of the de facto officials of Mexican millions of dollars for rehabilitating the government and the country's industries.

## PENNSYLVANIA RAILROAD

Philadelphia, Jan. 31.—The Pennsylvania railroad company's statement made public here today shows an increase of \$12,769,860 in the operating income of the lines east and of \$9,457,907 for the lines west for the year 1915, as compared with the previous year.

## DISCUSS STATUS OF NATIONAL GUARD

### Military Committee of House and Senate Hear Army Officers

## TO HEAR GUARDSMEN

### Gen. Miles Tells Senate Committee Country Should Have Standing Army of 150,000

## PRESENTS INCREASE PLAN

WASHINGTON, Jan. 31.—The status of the national guard in any preparedness plan that may be worked out by the present congress was discussed in detail by witnesses today before the senate and house military committees. Brig. General Miles, chief of the militia division of the war department, declared a federalized militia would be the best foundation on which to build the proposed continental army and Brig. Gen. Crowder, judge-advocate general of the army examined on legal aspect, of federalization, said it involved questions on which the courts never had passed.

National guardsmen themselves will be given a hearing tomorrow by both committees, the executive committee of the National Guard Association and numerous other state officers having been invited to present their views. Other witnesses today included Lieutenant General Nelson A. Miles who told the senate committee the country should have a standing army of 150,000 in peace times, so organized as to form the skeleton of an army that could be recruited to total 394,000 in war. Senator Knute Nelson, of Minnesota, a Civil War veteran, appeared before the senate committee in advocacy of a standing army of 200,000.

General Miles was questioned by every member of the house committee and the trend of his examination seemed to indicate that a majority of the committeemen preferred federalization of the militia to the continental army scheme.

The witness insisted that the war department had no antipathy to the National Guard as such and gladly would begin building on that basis if the legal obstacles in the way could be removed.

General Miles declared enactment of the continental army scheme would not necessarily destroy the national guard. He said several states were opposed to any federal control over the national guard.

General Miles presented an army increase plan of his own. His skeleton army proposal contemplated sufficient recruiting in war time to bring up the force to 394,000 without adding any officers or new regiments. There would be 79 regiments of infantry at a peace strength of 1,000 men each, 20 regiments of field artillery on a peace footing of four guns to a battery, 20 regiments of coast artillery also on peace footing and 18 regiments of cavalry.

The recruiting would bring each infantry regiment to 3,000 and each light battery to eight instead of four guns.

"There is nothing to indicate," said the general, "that a larger military force will be required in the near future if ever."

## DEFEAT M'CUMBER AMENDMENT TO THE PHILIPPINE BILL

WASHINGTON, Jan. 31.—The M'Cumber amendment to the Philippine bill which would withhold independence from the Philippines unless the powers agreed to respect their sovereignty was defeated in the senate today without a roll call. The senate agreed to hurry the bill to a vote by extending daily sessions and recessing instead of adjourning so all other business would be shut out until it is disposed of. An effort by Senator Hitchcock to limit all speeches to 10 minutes was blocked by an objection from Senator Cummins.

Senator Clapp of Minnesota said he believed the Philippines were ready for their independence at once.

## SEEK IDENTIFICATION

Torreon, Mex., Jan. 31.—The identification of a body buried at San Miguel as that of General Benjamin Arguedo, who was reported from Washington to have died of wounds, is sought by an order of Carranza officials that it be exhumed.

Major Beson of General Murguía's staff arrived here today with further information on Arguedo's death.

## REPORT AMERICANS SAFE

Washington, Jan. 31.—State department dispatches today report that Benjamin Snell, John Wood and Henry Acklin, who were reported killed near the Cusi mining district in Mexico, now are reported safe.

## TELEGRAPHIC BRIEFS

THE HAGUE, Jan. 31.—Via London.—Governor L. B. Hanna of North Dakota, who went abroad with the Ford peace party and was taken ill at Copenhagen, has arrived here. He will sail on Saturday, next, for the United States.

CHAMPAIGN, Ill., Jan. 31.—Mrs. Ruth Grubb of Decatur was killed in a taxicab in which she was riding when the vehicle was struck by an interurban car. A ten weeks old son she was holding in her arms escaped injury. The driver of the taxicab was seriously hurt.

LEAVENSWORTH, Kans., Jan. 31.—Upon the plea of his mother, who is reported dying at Clare, Iowa George Rentz was permitted to leave the United States penitentiary today to go to his parent's bedside. Rentz is under sentence for using the mails to defraud.

AMSTERDAM, via London, Jan. 31.—Paul Louis Mertens of Lier, near Antwerp, was court-martialed and shot as a spy at Hasselt, Belgium on January 25th, according to a dispatch to the telegram from Matrich.

DAVENPORT, Ia., Jan. 31.—The date for the hearing of the petitions for a permanent injunction against the Davenport saloonkeepers, who are testing Iowa's dry laws, has been changed from February 8 to 10. The cases will be heard by Judge M. F. Donegan in the Scott county district court.

MOLINE, Ill., Jan. 31.—Dry forces of South Moline township today placed petitions in circulation which are to be filed Wednesday, asking that the question of making the township local option territory placed on the ballots for submission to vote at the election Tuesday, April 4.

Washington, Jan. 31.—David Lamar, convicted in the New York Federal Courts of charges of impersonating an officer of the United States with intent to defraud, lost his appeal in the supreme court today. The New York court is free to enforce penitentiary sentence.

CHICAGO, Jan. 31.—More than 1,000 former employees of the Pullman Car Company at Pullman will return to work tomorrow, it was said today, bringing the total number of employees up to more than 9,000. The company now has about \$6,000,000 of contracts. None however, are foreign orders.

NEW YORK, Jan. 31.—James Trainor, whose restaurant gave the name of "tenderloin" to that section of the city in the neighborhood of Broadway and West Thirty-Third street, died yesterday in a hotel here. Trainor's restaurant was famous for its steaks.

LIVERPOOL, Jan. 31.—The life boat with seven seamen from the American line steamship Philadelphia, which went to the rescue of the crew of the British sailing ship Benlee after her collision with the Philadelphia off the coast of Wales on Saturday, was still missing today.

LONDON, Jan. 31.—The Tennyson family received news today of the death of Naval Lieutenant Harold C. Tennyson, a grandson of the poet.

## MEXICAN GENERAL IS TAKEN FROM TRAIN AND SHOT TO DEATH

JUAREZ, Mex., Jan. 31.—General Tomas Ornelas, commander here until he fled to El Paso to escape a sentence of death at the hands of Francisco Villa, was taken from a Mexican Central train at Laguna, north of Chihuahua City today by an armed squad and shot to death, according to local Mexican officials.

General Gabriel Gaviro, Carranza commandant here said tonight that no other passengers aboard the train which left here yesterday were molested and that all arrived safely at Chihuahua City late today.

According to later reports from Chihuahua City, every passenger on the train, including several Americans, was robbed, but not otherwise molested.

## CHARLES F. MOHR, JR., TESTIFIES IN BEHALF OF HIS MOTHER

PROVIDENCE, R. I., Jan. 31.—Charles F. Mohr, Jr., the ten year old son of Mrs. Elizabeth Mohr, testified today in behalf of his mother who is on trial charged with instigating two negroes to murder her husband.

The boy in his testimony supported the contention of the defense that Mrs. Mohr, instead of hating her husband, Dr. Mohr, and wishing him out of the way, hoped for ultimate reconciliation.

He declared that his mother had taught him to love his father. The boy contradicted the testimony of George Heale, a negro, that a murder plot was hatched in Mrs. Mohr's home on the night of August 27th, last.

## STEAMER IS OVERDUE

London, Jan. 31.—The American steamer Orleans is on the overdue list. She left New York Dec. 23 for Malta and has not since been reported.

## LEVEE AT ARKANSAS STATE FARM BREAKS

### Water is Expected to Flood Lowlands of Five Counties

## REMOVE WHITE CONVICTS

### Jacksonport Levee Protecting Newport is Expected to Give Way and Flood City

## MISSISSIPPI OUT OF BANKS

LITTLE ROCK, Ark., Jan. 31.—A break in the Arkansas river levee at the state farm near Cummins, Ark., was reported late tonight to penitentiary Commissioner John T. Burkett in this city. Mr. Burkett said the flood waters will spread southward into Louisiana.

Water pouring thru the break is expected to flood the lowlands of five Arkansas counties. The towns of Warner, Dumas, Douglas and Lake Village probably will suffer.

All white convicts at the state farm were removed on a special train. A steamboat will transfer the negro convicts tomorrow.

While the Jacksonport levee at Newport, was holding tonight it was expected to give way before morning, allowing the city to be flooded, according to a report. Three fourths of the residents have left Newport. The Iron Mountain railroad has detoured its trains over the main line by way of the Illinois division, because of flood waters north of Poplar Bluff, Mo.

## RIVERS WILL CONTINUE TO RISE

St. Louis, Jan. 31.—While relief was slight tonight for the flooded and flood-threatened districts of Northern Missouri and Illinois, the rivers in the southern half of these states will continue to rise for three days, according to the government weather bureau here.

The Mississippi from St. Louis to Cairo, Ill., is out of its banks in many places and backwater from small streams is driving hundreds of lowland dwellers from their homes in Missouri and Illinois and the breaking of several levees in the drainage districts of southern and central Illinois has flooded thousands of acres of farm lands. No loss of life and no heavy loss to livestock has been reported.

The first death due to flood was recorded at Cairo tonight when the swirling waters at the junction of the Mississippi and Ohio rivers carried down James Guyser and gas-line launch and barge in which he was hauling corn from a flooded section on the Missouri side.

## Predict Record Stage

Washington, Jan. 31.—Flood stages in the lower Mississippi approaching any record in past years were predicted tonight by the weather bureau. A flood warning forecast exceptionally high waters from Vicksburg to the river's mouth.

For Natchez a stage of 52.5 was predicted by Feb. 20, Baton Rouge, 43 feet; Donaldson, 34 feet; and New Orleans, 21 feet by early in March. Other flood crests indicated were: Memphis, 45; Helena, 53; Arkansas City, 45; Vicksburg, 52.

The Missouri was reported falling slowly from Kansas City to its mouth. The Wabash and rivers in Indiana are above flood stage.

Two Thousand in Camp. Hickman, Ky., Jan. 31.—Two thousand persons were being cared for tonight at the refugee camp here established when the West Hickman levee broke today under the pressure of the Mississippi river flooded and drove residents of that section from their homes. Appeals have been sent to Washington asking that the federal government take charge of the situation.

The break in the West Hickman levee resulted in the flooding of several manufacturing plants and the homes of factory workers.

## PEORIA RANKS SECOND IN CORN MARKETS

Peoria, Ill., Jan. 31.—With a total of 9,681,000 bushels received during the quarter ending today this city ranks second in the corn markets of the nation, according to figures made public by the secretary of the Board of Trade today. Chicago is first with nearly 29,000,000 bushels and Kansas City third with 9,542,000.

## SET TRIAL FOR FEB. 22

Florence, Italy, Jan. 31.—(Via Paris).—The trial of Pietro Rossi, a Florentine art student, on a charge of robbing and attempting to kill Mrs. Mary E. Flavelle of Chicago on board a train near Arezzo in May, 1914, has been set for Feb. 22 at Arezzo.

## IRELAND RAISES 86,277 RECRUITS

London, Jan. 31.—From the outbreak of the war to Jan. 2 the recruits raised by Ireland numbered 86,277, according to the report of Baron Wimborne, lord lieutenant of Ireland, published tonight.

## BELIEVE SUBMARINE IS PROCEEDING SOUTH

### NAVY DEPARTMENT NOT ALARMED ABOUT K-5

Steamer Reports Sighting What Appeared to be Missing Submarine off the Florida Coast—boat is bound for Key West.

Washington, Jan. 31.—A navy department dispatch from Charleston tonight said that a steamer had reported sighting what appeared to be the missing submarine K-5 off the Florida coast.

The department's despatch follows: "The following message had been received from Jupiter Inlet, Fla.: 'Steamer D. A. Canfield reports what appeared to be the Submarine K-5 at 5:30 p. m., January 31st, twelve miles north of Jupiter bound south. (Signed) Captain Fenn.'"

Department officials said that if the K-5 was proceeding on her natural course for Key West, her position at 5:30 would have been virtually that reported by Captain Fenn.

The message announcing that a steamer had sighted what her officers believed to be the missing submarine K-5 strengthened officials here in their belief that the K-5 had met with no harm despite the failure of all efforts to locate her since she disappeared in a fog off Charleston early yesterday. The department's efforts to clear up all doubt as to the K-5 continued, although officials were firm in their opinion that the vessel's failure to respond to wireless inquiries was due entirely to the short range of her wireless.

## Commander is a Bostonian

Boston, Jan. 31.—The navy department feels no apprehension as to the safety of the submarine K-5, which is reported missing at Charleston, S. C., according to a telegram from Secretary Daniels received by Mayor Curley tonight. Lieutenant Roman G. Grady commander of the missing vessel is a Boston man.

Secretary Daniels said that the K-5 might have continued to Key West, after being separated from the other boats in a fog or have anchored until the fog lifted.

## GOETHALS AND EDWARDS IN NEW YORK DENY REPORTS OF FRICTION

NEW YORK, Jan. 31.—Major General George W. Goethals, governor of the Panama Canal zone, who arrived today on the steamship Calumet on his way to Washington to appear before the congressional committee on canal appropriations, said he was unable to fix any definite date as to when the canal would be opened, but was confident there would be no more delays.

Brigadier General Clarence Edwards, commanding the military force in the zone, also arrived on the Calumet and both he and General Goethals stoutly denied that any friction, or serious difficulties of any official nature existed between them as previously reported in cable messages.

## ATTACKS ROOSEVELT FOR ATTITUDE TOWARD WILSON ADMINISTRATION

WASHINGTON, Jan. 31.—Senator Reed of Missouri today in the senate attacked Colonel Roosevelt for his attitude toward the Wilson administration and praised President Wilson's conduct of foreign affairs. A sharp exchange between Senator Reed and Senator Fall occurred when the latter interrupted the speaker to ask whether "the senator thinks Oyster Bay a safer place now than was Kansas City in 1898."

"In answer to the gallant knight from the southwest," replied Senator Reed, "I will say that my application was in and my only reason for not participating in the Spanish War was that no further troops were ordered from Missouri. I have not mentioned it now but for the contemptuous and wholly unnecessary insult from the senator from New Mexico."

"If the senator from Missouri desires to take that application from my inquiry, he is welcome to it," retorted Senator Fall.

## GOVERNMENT LOSES POINT

Grand Rapids, Mich., Jan. 31.—Judge Sessions, in United States district court today refused to allow the government to read into the record of the Eastland hearing here some of the testimony said to have been given by Captain Harry Pedersen at special investigations held by city and federal officials at Chicago shortly after the capsizing of the Eastland last July.

George Arnold and William H. Tull, officials of the company owning the Eastland, were on the stand this afternoon, but their testimony brought out little of importance.

## STRIKERS ATTACK POLICE

Youngstown, O., Jan. 31.—Trouble between 400 striking laborers at the Carnegie Steel company plant here, and police developed tonight when strikers attacked two policemen, who ordered a crowd to move on. One officer was beaten a force of twenty reserves were rushed to the scene and the strikers dispersed. It is feared an attempt would be made to call out more workmen at any mill of this company and police will guard the vicinity of the plant.

## ZEPPELINS MAKE RAID ON ENGLAND

### Nature of Damage and Towns Visited Are Not Made Public

## RUSS CEASE OPERATIONS

### Muscovites Seemingly Inactive After Driving Turks from Region in Asiatic Turkey

## CAPTURE MANY PRISONERS

A Zeppelin air raid on the eastern, northeastern and midland counties of England has followed closely the attacks on Paris by German dirigibles. The British war office, which now controls the defenses of London against air attacks, announced that six or seven aircraft took part in the latest raid but the towns or villages visited and the nature of the damage inflicted have not been made public.

## Russ Cease Operations

After having driven the Turks from a region about forty miles in length in Asiatic Turkey to the west of Lake Van and put them to retreat down the Musa Dagh, the Russians seemingly have ceased their operations in this particular vicinity for the winter.

Large numbers of prisoners were taken by the Russians in their drive on the Turks in addition to heavy guns, machine guns and other war material.

There has been little fighting of great moment anywhere in any of the war theaters except by the artillery.

German positions to the south of Rove, and to the north of St. Michael have come under the guns of the entente allies on the western line and considerable damage has been done.

The last French communication does not mention fighting in the vicinity of Neuville or south of the Somme where positions recently were captured by the Germans.

The Berlin report however, says these positions have been held against repeated French attacks.

## Southern Russian Towns

From northwest of Riga to the middle Dnieper there has been a considerable bombardment by the Germans of various Russian towns and positions. Petrograd reports the surrounding by the Russians of an Austrian detachment in the middle Dnieper and the annihilation of most of the Austrians, the remainder being captured.

The Italians and the Austrians have opened another fierce artillery duel along the Isonzo front.

No reports have been received from the Balkans except a semi-official statement from Berlin that the Italians have thrown another infantry division and several batteries into Avlona, their intention being to hold this important port against the advance of the Austrians.

## FINNS FLEE FROM SERVICE IN RUSS ARMY

New York, Jan. 31.—Several hundred Finns fleeing from service in the Russian army arrived here today in the steamer of the Danish steamer Hellig Olav from Copenhagen. Among the first class passengers was Prince Eric of Denmark, who is on his way to Edmonton, Canada, to study Canadian methods of farming. A British patrol ship was taken off. It was returned after two days and the vessel permitted to proceed.

## ANNOUNCE SPEAKERS

Peoria, Ill., Jan. 31.—Major General Leonard Wood, U. S. A.; Dudley Field Malone, collector of the Port of New York; Louis D. Brandeis, Boston, recently appointed associate justice of the supreme court, and Henry Estabrook, noted New Yorker, were today announced as the speakers at the annual Washington banquet of the Creve Coeur club here on the night of Feb. 22.

### CUBANS BIG CUSTOMERS.

Still another contributing cause of the unequal prosperity which prevails along certain business lines is the fact that Cubans are now doing a vast amount of business in the United States. Cuban planters have been securing high prices for their products because of the war and further as a result of the war they have been prohibited from going to Europe for pleasure trips and to purchase machinery and equipment and this business has practically all come to the United States. It has meant an addition of many millions to an otherwise enormous total directly caused by the war.

### May Starve from Prosperity.

While business in many Pennsylvania cities is almost abnormally prosperous because of dealings in war munitions, a curious condition threatens the country. There are many dairy and truck farms in Pennsylvania, in addition to those devoted to general farming, and because of the high prices paid in munitions factories it is now almost impossible to secure labor. In the winter time the amount of farm work is insignificant by comparison with that necessary at other seasons of the year and farmers are already fearing that the situation will really be serious this spring and summer, so as one commentator puts it, "Prosperity may yet starve the state" by making it impossible to get the farm labor so necessary to crop production.

### Schools and Politics.

The question of keeping the schools and politics separate is one almost as old as the history of the country. It comes up in a new form every little while. Even in the national capital the question is one which has interest. Under the plan in vogue there the supreme court of the District of Columbia appoints the board of education, which in turn has authority to name administrative officers and teachers. A bill has been introduced into congress to abandon this plan and centralize the power in a board of commissioners. A counter proposition is that the president of the United States be given power to name the board of education.

### Rippling Rhymes By WALT MASON

### The VEILED FUTURE.

We know not what a day shall bring, what brand of weal or woe; so let us smile and let us sing, and trip fantastic too. We may feel sure tomorrow's sun will hide, the whole day long; and when all things are said and done, our guesses will be wrong. We may insist that dark green grief tomorrow's brow will wear; and yet the dawn may bring relief from all the woes we bear. No man should look ahead and say, "Tomorrow is a frost, so I shall wait around today, and weep, and blame the cost." And so, as I have often said, in dirges fierce but brief, it's foolishness to look ahead for further stores of grief. 'Tis vain to rend our beards and say, "Tomorrow's charged with fate," far better to enjoy today, before it pulls its freight. This day is ours; this cheerful morn'g, all yesterdays are dead; all other days are yet unborn, the stretch of days ahead. This day is ours, the dear, sweet thing, until it ambles by; so let us dance and let us sing, and throw our hats on high.

weeks of winter. But if the day happens to be cloudy and no shadow is cast upon the ground, the knowing animal will not return to his warm quarters for he knows that higher temperature and soft breezes are coming. Of course, this is all a fable, but it has been told and retold so many generations that there are thousands of people who firmly believe that the weather conditions of Feb. 2 are certainly indicative of that which will come in succeeding weeks. Few are they other than boys and girls who delight in snow and ice, who wish for a sunshiny ground hog day and a long continuance of winter weather.

### A Question of Statistics.

Contrary to the popular belief, a survey recently conducted in a country school district shows health conditions not equal to those in the average city district. In the country mentioned nearly 1,000 children were examined and 44 per cent were affected with adenoids, 36 with defective vision, and 74 per cent needed dental treatment. The facts brought out in this survey have been emphasized by like investigations in Pennsylvania, New Jersey and three other states, where it has been shown that these diseases are more common among country children than city children. It is only fair to say that country districts vary just like those in the cities, according to the general character of the people and to climatic conditions. And notwithstanding the reports made, people hereabouts will stick to the belief that the man who owns a well equipped farm has the best possible chance of establishing an ideal home.

### The Other Side.

Every little while the newspapers carry the story of some man who has made a fortune in war stocks and the spectacular increases in the values of some stocks have been noted from time to time. Albert P. Miller, a Providence bond broker, is accused of embezzling \$300,000 from his customers and has been adjudged a bankrupt. His creditors will meet today to present their claims and it is known that his assets are only a few thousand dollars. Miller lost his clients' money in war stocks on the New York exchange, for he was caught on a number of rises when he was trading heavily in Bethlehem Steel. It is the other side of the story and the investor who knows little about speculative markets should not be deluded with the idea that everybody gets rich trading on the market.

### The Truth About Institutions.

A communication appears elsewhere from A. L. Bowen, secretary of the Illinois state charities commission, explaining in some detail the policy which the state is now following in the matter of publicity given to state institution affairs. The letter was occasioned by comment in the Journal recently to the effect that certain publicity stories about institutions would lead one to think that all of the good work in these institutions had been done during the past year or two.

The comment was not intended to level criticism at the publicity methods but rather to remind the public that good efforts had also been put forth at other times. The newspaper that argues against publicity would be inconsistent, indeed, and in times past the management of state institutions has been at fault because the public was not familiarized with various facts about institution life. Mr. Bowen indicates that the publicity plan now being followed is for the purpose of giving the people the truth about the state institutions and thus creating a larger interest in them. The institutions belong to the people and their maintenance is made possible by the taxes which people pay. A sincere publicity policy will bring about a closer sympathy between the public and the management of the institutions and will impress the people with the large work which is being done for the wards of the state. Mr. Bowen's letter makes the board's good intent clear.

### CHAMBER OF COMMERCE ANNUAL MEETING TONIGHT.

Banquet Will be Served at 7:30 and Will be Followed by Brief Program.

The annual meeting and banquet of the Chamber of Commerce will be held this evening at the Peacock Inn at 7:30 o'clock. A large number of tickets have been spoken for by members of the organization and their friends and the attendance promises to be unusually large. Secretary Weber has completed the program for the evening and promises several pleasant surprises. Music for the occasion will be furnished by one of Jacksonville's popular orchestras. In formulating the program Mr. Weber has endeavored to steer clear of long tiresome addresses and to keep the "made in Jacksonville" idea in mind. The annual report of the secretary, for the year just past will be presented, and the various departmental chairmen will take up matters of vital interest to the community at large. President J. J. Reeve will act as toastmaster.

Any member or friend of the organization who has not secured a reservation should notify Secretary Weber by phone or in person, not later than 2 o'clock this afternoon. Plates will be fifty cents.

### BIDS ARE ASKED.

Proposals are hereby asked for 3,024 feet of six-inch class B cast iron water pipe, together with fittings, to be delivered as directed by the city. Bids will be received until 10 a. m. Monday, February 14, and must be accompanied by a certified check for one-tenth of the purchase price.

R. L. Pyatt, city clerk.

### SPRINGFIELD WILL PLAY

HERE FRIDAY NIGHT

Fast Game Expected When Capital City Lads Line Up Against Jacksonville High — Junior-Senior Game as Curtain Raiser.

What is expected to be the fastest game of basketball thus far this season in the David Prince gym will be played Friday night when Springfield high will be the opponent. Earlier in the season Jacksonville's Jacks were defeated by Springfield on Springfield's floor. The Jacksonville lads believe they can win from Springfield here and no stone will be left unturned to perfect the local five for the fray. Springfield has a fast team, it is admitted, but last week they were defeated by the Lexington five. They will have a crucial game tonight when they meet Decatur, one of the strong teams of Central Illinois.

### Senior-Junior Curtain Raiser.

The Jacksonville game will have as a curtain raiser a contest between the Seniors and Juniors as was arranged at a meeting of the senior class yesterday. Much rivalry is existing among the classes at the high school in basketball. Jacksonville is one of the central Illinois towns that is figuring on giving an opponent a good race for the district tournament honors here this month. As to State championship in the northern districts Freeport, last year's champions, are showing up in fine form. They recently put Peoria Central high out of commission. Rockford in the same district with Freeport has been winning every game. They defeated Elgin last Friday with little effort.

Naperville looks good in the territory around DuPage county while Evanston Academy and Evanston high now class in Cook. Neither of these teams enter the state tournament as a general rule.

In the central part of the state Springfield, Decatur, Peoria, Bloomington and Normal University High will have strenuous fights. Shelbyville and Carbondale will probably hold the records for southern Illinois.

### MRS. JOHN MORGAN DIES AT RESIDENCE IN BLUFFS

Succumbs to Illness of a Week's Duration—Burial Will Take Place in Griggsville—The Hamilton Levy Breaks.

Bluffs, Jan. 31.—Mrs. Clara Morgan, wife of John Morgan, residing on a farm 3 miles south of town, died Sunday evening of diabetes, aged 48 years. Her last illness came upon her one week ago and her death which was unexpected came as a shock to the family.

Besides her husband she is survived by eight children, Mrs. Wm. Berkum of Alton, Mrs. Charles Bates of Winchester, Dana, Winifred, Dorothy, Clella, Margaret and John. Two children having preceded her in death.

Funeral services will be held at the family residence at 2 p. m., Tuesday. The body will be taken to Griggsville Wednesday where the burial will take place.

Mrs. Elizabeth Elliott of Waverly was called here the latter part of last week by the illness of her son, M. S. Elliott. Mrs. John Rogers and Holland Elliott, other relatives from Waverly are also here.

James Sawyers who was stricken by a light stroke of paralysis Wednesday of last week is somewhat improved.

Opal Laurence has been out of school the past two weeks on account of illness.

Born to Mr. and Mrs. H. W. Kendall, Jan. 29, a daughter, first child. **Basements Flooded.**

Bluffs is certainly a wet town at present. In the north part which was always supposed to be on high ground the basements of the dwellings have from 2 to 14 inches of water. This is the first instance of the like on record. **Hamilton Levee Breaks.**

Henry Krusa of Naples was a Bluffs visitor Monday. He rode over one half mile of water. The Hamilton levee west of town broke Sunday morning, one and one half miles below Naples, the Mauvaisier creek backed the water over the levee and the water surrounds 26 large stacks of wheat belonging to H. C. Oakes and James Bunch.

**Leap Year Party.**  
The students of the high school expect to give a leap year party at the Red Men hall Tuesday evening.

### WITH THE SICK.

Russell Harmon, the obliging delivery boy at the millinery and ready-to-wear establishment of J. Herman, is laid up with the fashionable ailment, the grip.

Ernest Wheeling, who has been very ill with grippe, has recovered and returned to his work at the Peacock Inn.

Mrs. J. D. Adams of South Main street is at the Home Sanitarium for treatment.

### THE BIRTH RECORD.

Born, to Mr. and Mrs. Frank Harrod of Ashland avenue, Monday, a son.

**STEAMER BENGAL SINKS.**  
Liverpool, Jan. 31.—The steamer Bengal, which was in collision with the liner Philadelphia Sunday, sank while being towed in today, one man being drowned. The pilot boat that was alongside her was dragged down and two men were seriously injured.

## MORTUARY

Day.

Mrs. John F. Day died at the family home, 1204 North Diamond street, Monday morning at 6:30 o'clock after an illness extending over a period of two months. Deceased was born in this city in 1868 and her father was Joseph Escorse. Both her parents were natives of Maderia. She was united in marriage in this city Aug. 4, 1884, to John F. Day. She was for many years a faithful member of Northminster Presbyterian church. She was also a member of Star camp No. 141, R. N. A.

She is survived by three sons, Clarence of Beardstown and Lewis of Elmer of this city. She is also survived by three brothers, Henry and James Scott and Joseph Escorse, all of this city. Funeral services will be held from the residence Wednesday afternoon at 2:30 o'clock, in charge of the Rev. Walter E. Sponts, with interment in Jacksonville cemetery.

## Stout.

Monday morning James Harvey Stout passed away at his home, three miles northeast of Jacksonville.

Mr. Stout was born April 15, 1841, in Indianapolis, Ind., and was the son of Edward and Elizabeth W. Stout. Mr. Stout was married in April, 1874 in Jacksonville to Miss Louise Whitmore, who preceded him in death. He is survived by two sons, William E. of Jacksonville and Frank of Peoria; also one daughter, Mrs. Frank Downs of Jacksonville. He had lost four children by death. He leaves also one sister, Mrs. Sarah E. Mullins of Jacksonville and one brother, Thomas, of Philadelphia, Cass county.

Although a lifelong cripple Mr. Stout was always energetic and industrious. He was an obliging neighbor, kind in his family and an upright man greatly esteemed in the community in which he lived.

The funeral will be conducted at the family residence by Rev. Walter E. Sponts at 1:30 this afternoon and burial will be in Hazel cemetery.

## Terry.

Edward Terry died at his home, 343 Lorton street, Monday morning at 10:25 o'clock. Deceased had been ill for more than five years and death was not unexpected. Edward Terry was born in slavery and at the time of death was probably about 80 years of age. He was born at Petersburg, Va., in slavery and the names of his parents are unknown. He came to Jacksonville thirty years ago and for many years he followed the trade of blacksmith, being at one time employed by Jerry Leary on West Morgan street. He was united in marriage in this city to Mary Alexander twenty-five years ago. She survives him. There also survives an aunt, Lizzie Hall of Litchfield. Mr. Terry was a member of the G. A. R. and of Bethel A. M. 22 church. Funeral services will be held from the church Wednesday at 2:20 p. m. in charge of the Rev. N. J. McCracken.

### Figure it Out

When Sarah Week wed young Bill Day,

The jokers had their little say.

Each, with his jesting tried to show,

That Father Time was dealt a blow.

A week was lost, but a day was found,

But as the years have rolled around,

More Days have come—and now its plain;

There are Days enough for a week again.

But be that as it may—just plan

### MRS. FLORENCE P. HARTMANN HEARD IN BRILLIANT RECITAL

Delighted a Large Audience With Her Art Last Night in Music Hall at the Woman's College.

Mrs. Florence Pierron Hartmann appeared in a brilliant recital in Music hall at the Woman's college Monday evening. Altho the weather was extremely unfavorable, the hall was completely filled with an enthusiastic audience.

Mrs. Hartmann has been one of Jacksonville's favorite singers for so long that it seems nothing could be added to what has already been said of her ability as a finished artist.

To interpret a program so artistically that an audience is satisfied means much to the singer of today. Such a rendition did Mrs. Hartmann give last evening and her broad musicianship was manifested in every song that she sang. She possesses a contralto voice of unusual range, under perfect control, and of beautiful quality.

Mrs. Hartmann's program last night included a study of the more serious songs, calling for unusual demands of interpretation and delivery. How delightful was the German group at the opening of the recital. The "Wiegenlied" by Brahms and the "Befreit" by Strauss finding particular favor with the audience. In the English songs, Foot's "In Piccadilly" was a favorite. "My Love He Comes on the Snee" paved the way for Kernochan, "We Two Together," which was especially well given. At the close of the group the audience demanded an encore and Mrs. Hartmann gave "I Heard a Thrust at Eve," by Cadman, with great effect.

Of the French group the Gounod number found a happy response from the audience and in fact it was difficult to tell just which of the latter group pleased the most. The selection from Meyerbeer, "Arietta," and "Canzonetta," from Dinorah, the last number affording a fitting climax to an evening of song that will long linger in the minds of those who heard it because of its artistic character. Miss Deane Obermeyer is deserving of no little praise for her beautiful accompaniments.

The program follows:  
Wie bist du, meine Königin, Brahms  
Wiegenlied ..... Brahms  
Mädchen mit dem Rothen Mundchen ..... Gall  
Di bist wie eine Blume ..... Schumann  
Der Nussbaum ..... Schumann  
Befreit ..... Strauss

In Piccadilly ..... Foote  
Thistle-down ..... Foote  
The Wanderer to His Heart's Desire ..... Foote  
My Love He Comes on the Snee ..... Clough-Letter  
Two Roses ..... Gilbert  
We Two Together ..... Kernochan

O ma Lyre immortelle, from Sapho ..... Gounod  
L'amour s'envole ..... Wekerlin  
Les Berceaux ..... Faure  
Premier Danse ..... Massenet  
Les Larmes, from Werther, Massenet  
Bonne Nui ..... Massenet  
Arietta and Canzonetta, from Dinorah ..... Mayerbeer

### M'ADOO AND KITCHIN DISCUSS BILL TO CREATE TARIFF COMMISSION

WASHINGTON, Jan. 31.—Secretary McAdoo and Democratic Leader Kitchin today discussed the administration bill to create a tariff commission which soon will be introduced in the house with President Wilson's backing. It was agreed that Mr. Kitchin will not lead the fight for the bill as he does not agree with the tariff commission idea, but he will not oppose it. The bill will be steered thru the house by Representative Rainey, who ranks next to Mr. Kitchin on the ways and means committee.

Mr. Rainey and Secretary McAdoo will confer this week and final plans for the measure will be made then. Some administration leaders have been of the opinion that the bill should not provide for a tariff commission with power to revise schedules, but for a board somewhat similar to the old tariff board, which investigated the cost of production here and abroad and acted as a sort of auxiliary to congress in collecting tariff statistics.

### RECOVER SOLDIER'S BODY.

Brownsville, Texas, Jan. 31.—The body of Sergeant Owen L. Clements, Battery D, fourth field artillery, was recovered from the Rio Grande river today. The bodies of three other soldiers were recovered yesterday. The four were drowned when several United States soldiers recently went into Mexico at Progreso, Texas, while attempting to rescue two comrades who had been taken in charge by Mexicans.

### NEW YORKER RETURNS.

New York, Jan. 31.—Isaac Rose, a theatrical producer of this city, who was recently detained by the British authorities at Falmouth while a passenger on the steamship Rotterdam, returned here today on the steamship St. Louis. Rose declared that his detention was due to the finding of a trunk in his stateroom containing pro-German literature. His own trunk, he said, had been misplaced and the strange one substituted in its stead.

### FALL ON WALK FATAL TO MRS. EMMA CLAYPOOL

Resident of Greenview and Prominent Member of the Rebekah Lodge Succumbs to Accident.

Mrs. Emma Simons Claypool, aged 47 years, a prominent worker in the Rebekah lodge, and well known by a large number of Jacksonville people, died at her home east of Greenview, Saturday night as the result of injuries sustained when she fell on the slippery walk Saturday morning. She had gone to the meat house and in her fall on returning fractured her skull. She did not regain consciousness.

She was born in Dwight, Ill., where she received her education and later taught in the public schools there. In 1898 she was married to Edward E. Claypool. Besides her husband she leaves one brother and two sisters. Funeral services will be held this afternoon from the residence in charge of Rev. R. L. Cartwright, of Chandlerville.

### SCHOOL OF INSTRUCTION PLANNED FOR POLICEMEN

A school for the instruction of policemen that will tend to increase their efficiency, is to be opened some time during this week at the police station in Springfield, according to plans announced by Commissioner Roy R. Reese of the department of public health and safety. Arrangements have been made for the use of the room formerly occupied on the second floor of the station, by Police Magistrate Clark B. Shipp, and one-half hour each week will be given over to talks to the men in which the rules of the department will be studied.

from the hotel to the theater shortly before 8 o'clock, the hour scheduled for the beginning of his speech. The Auditorium was a riot of red, white and blue, swung in festoons from rails and boxes. Back of the stage hung the American coat of arms on a shield of blue.

Four galleries beside the main floor were white with faces. Many had sought in vain to obtain tickets and were turned away. Twelve hundred police held in check the sidewalk throngs, clearing the street entirely of traffic between the hotel and the Auditorium. A brass band in the pit played popular and national airs.

Galleries are filled. An hour before the president was due to speak the galleries were filled. The main floor seats were taken long before he came on the stage. The rousing welcome with which Chicago greeted his arrival echoed in the cheers of the crowds about the building as the presidential party came in.

Mayor Thompson of Chicago occupied a seat on the stage near the president and Governor Dunne of Illinois was in a box.

The entrance of the president was heralded by the playing of the "Star Spangled Banner." The crowd stood and applauded. Mrs. Wilson did not enter with the president, but sat in a box.

The meeting was opened with a prayer by the Rev. Albert Joseph McCartney, the president and the audience standing.

Mr. Wilson was introduced by Frank C. Caldwell, president of the industrial club.

The president began to speak at 8:15 o'clock.

### EXPECT COMMUNICATION ON LUSITANIA CASE

Washington, Jan. 31.—A further communication from Germany in the Lusitania case is momentarily expected by state department officials, it became known tonight, but up to a late hour it had not been received. It was understood the new representations would follow the informal character of recent stages of the negotiations and might contain a new set of proposals in lieu of those rejected a few days ago by the United States.

Secretary Lansing said today he had no confirmation of news dispatches saying that Germany's final answer was on its way to the United States and that the action of the submarine commander is not disproved and Germany will make no further concessions.

### RAISE MONEY FOR AERIAL RESERVE

New York, Jan. 31.—For the development of an aerial reserve throughout the country, more than \$120,000 had been subscribed in Illinois, Michigan and Maine up to mid-night tonight, it was announced by the Aero Club of America. At that hour the offer of Emerson McMullins of this city to add \$100 to every \$900 raised expired. Fifteen states had succeeded in raising sufficient amounts to benefit under the offer. Illinois led the states heard from tonight with \$100,000 raised by public men in Chicago.

### INTRODUCE SHIP PURCHASE BILL

Washington, Jan. 31.—The government ship purchase bill, framed after extended conferences between administration leaders in congress and other high officials was introduced in the house today by Representative Alexander and was referred to the merchant marine committee of which he is chairman. Hearings will begin shortly with a view to expediting consideration of the measure as much as possible.

## HEALTH ORDINANCE CONSIDERED BY THE CITY COUNCIL

Changes Made to Suit Local Conditions—Side Walks to Receive Early Attention.

At the council session Monday morning the public health ordinance was the principal theme of discussion. No formal reading was given the ordinance but after adjournment the council met in caucus and considered the measure a section at a time. Some sections were eliminated and the revised ordinance will be before the council at an early date.

Following a reading of the minutes and report of departments were called for Mr. Widmayer said that the bid of the Jacksonville Journal company for the city printing was the lowest and recommended that the contract for the year be thus awarded and the council so ordered. Mr. Cox mentioned work in progress on a number of sewers and sidewalks and said that as he understood the law it would be necessary where property owners are to be compelled to put down sidewalks to have an ordinance for each separate street. As it will not be very long until spring weather Mr. Cox suggested that the sidewalk ordinances should be put into shape soon. He also reported the purchase of a new team for use in the street department.

Mr. Martin, who was in Chicago at the automobile show last week, reported inspection of auto driven fire apparatus which he considered to be very desirable for Jacksonville if arrangements can be made for the purchase. Mr. Vasconcellos said that the plans are nearly ready for the re-wiring of the city streets and that in the re-wiring work a great deal of wire will be eliminated. He reported the resignation of William Wilkinson as mechanical engineer, who is giving up his work in order to again become chief engineer at Jacksonville State hospital. Mr. Vasconcellos said that the resignation was received with regret.

Mrs. Sarah Cocking asked that the council give consideration to the suggestion that signs formerly used for advertising saloons be removed from the buildings which are now otherwise used. Mrs. Cocking said that from her investigation she believed that such an ordinance could be drafted and said that the signs were unsightly and conveyed a false impression. She also called attention to the need for some ordinance governing milk supply and said that she had known of instances where milk men refilled bottles taken from customers' homes on the street without knowing that the bottles had been washed or sterilized. Mayor Rodgers said that both of these matters would be considered and that the milk supply was given due consideration in the pending general health ordinance. The mayor then mentioned that he had taken the health ordinance as prepared by an officer of the state board of health and in conference with City Attorney Reeve had cut out various sections which he did not think applicable to a city the size of Jacksonville. The mayor suggested that if might be well to take up the ordinance for consideration.

Mr. Widmayer expressed the view that the health ordinance on the statute books now is comprehensive enough and did not see the need for the proposed measure. Mr. Vasconcellos said that he understood that the state was to make a health survey here and that it might be well to postpone the passage of any ordinance until after these matters had been completed.

Mrs. J. H. Danskin, who was present with Mrs. Arthur Vannier and Mrs. A. Wehl as a committee to urge the passage of the health ordinance, said that it was very uncertain when the survey would be made and if the council delayed until that time there might be no occasion to pass the ordinance for several years to come. Mr. Martin said that he was not opposed to a health ordinance but thought a caucus advisable before the council approached the measure with the idea of giving it the first reading. Mr. Widmayer said a copy had never been sent to him.

After some other discussion along this line, adjournment was taken and the council met in an informal way to consider the ordinance. Mayor Rodgers said his particular interest was to have a health ordinance which corresponded with the state law, as there have been a number of additions to health laws of the state during the past few years which are not included in the present health ordinance. Under the law deaths, births and general health statistics must be reported to the city clerk and become a part of the permanent records of the city. The ordinance as changed at the conference will be written up and copies furnished all the commissioners, so that definite action will not be long delayed.

## ARRESTED ON CHARGE OF LARCENY.

"Slim" Jackson and Bertha Hughey were arrested Monday by Deputy Sheriff Norris on the charge of larceny. The complaint came from Springfield and Jackson and the Hughey woman were picked up on request of Sheriff Wheeler. It will be remembered that Jackson is the man whom Sallie Rice and the Hughey woman indulged in a battle over several weeks ago. When the arrest was made the couple were working at a farm near Orleans.

J. Arthur and Eckhardt Hoffman have returned to Chicago after attending the funeral of their grandmother, Mrs. Rebecca Hoffman.

## FEEDING HOGS FOR PROFIT

By JOHN M. EVVARD

Assistant chief in Animal Husbandry  
Iowa Experiment Station.  
(Courtesy Morris & Co.)

### A VALUABLE BOOKLET ON HOG FEEDING.

By arrangement with Morris and company the Journal is permitted to print a somewhat extended article written by John M. Evvard of the department of animal husbandry of Iowa State college at Ames. This paper, "Feeding Hogs for Profit" was issued in pamphlet form by Morris and company because of the many valuable suggestions it includes for farmers and stockmen. Mr. Evvard has spent years of study in hog feeding at the Iowa experiment station and has carried out his theories in a practical way. He believes in the self-feeding system for hogs and his experiments have proven that tankage is of very great advantage in fattening hogs and that every dollar thus invested will be wisely spent. If every farmer had all of the skimmed milk that his hogs could eat there would be no special demand for tankage but in the absence of this skimmed milk some other supplemental food must be given for best results, and countless experiments have thus proven the value of tankage.

Mr. Evvard's pamphlet will be published in installments of such length that it can be easily followed from day to day by farmer readers without making a great demand upon their time. The first installment is printed this morning.

(By Courtesy of Morris & Co.)  
To economically grow and fatten swine with our home grown farm grains it is essential that we supplement them with feeds containing the constituents in which these grains are lacking. Indian corn or maize is our great American hog food; however, it does not furnish a complete ration. The same may be said of barley, wheat, sorghum seed, kafir corn, milo-maize and rye, which alone are not efficient in the production of pork, taking swine from weaning to marketing time.

With an abundance of corn, barley, wheat and similar food-stuffs it is not possible to make a balanced ration because these materials all furnish a one-sided diet, rich in carbohydrates (largely starches and sugar, and fats, but deficient in protein (muscle building and bone forming) material. These three mentioned feedstuffs are of practically equal value for pork production. On the average it takes about 455 pounds of barley, 470 of wheat, and 475 of corn to produce a hundred pounds of gain on thrifty, fairly well grown shoats. On the other hand, a mixture of equal parts of said feeds will usually produce gains at an outlay of not more than 415 to 455 pounds of feed for each hundred pounds of pork made. The addition of a protein supplement such as tankage, or meat meal, or skim-milk, not only will produce gains much more rapidly than the above mixture but more economically. The hog man must therefore realize that, even though he has an abundance of home-grown farm grains, he is still in need of those supplements, which are rich in protein and minerals.

The most ideal rations is the one that supplies physiological demands and cravings. These food constituents, protein (muscle, bone, cartilage, skin, hair, bristles and hoof formers); carbohydrates, sometimes called starches (the stuff that makes fat, and furnishes the energy for the working of the engine); fats (which are used both for energy and fat production purposes); and mineral nutrients (without which a hog cannot live, grow and thrive) should all be furnished. The mineral nutrients include calcium and phosphorus especially, which with magnesium comprise practically all of the dry minerals of bone. Then there is the potassium, which is found as a potassium-phosphorus combination in the soft tissues. Wood ashes are especially rich in potassium and calcium, which explains in a large measure their efficiency as hog feed and feed. There are other elements, such as sodium and chlorine, which we cannot most readily get in pure compound salt, but which are found in iron, magnesium sulphur and probably arsenic, manganese and iodine, which are indispensable. It is sufficient to say that these mineral nutrients furnish largely, not only the stimulants to the body without which life would be impossible, but also are highly essential in building up the bony body frame. The ideal ration should include an optimum of all of these feed materials in order to be most efficient.

What is the matter with corn? All who have had experience in attempting to feed corn alone to young growing pigs realize fully the many difficulties encountered. The hogs do not thrive, much less grow, and finally is a vast majority of cases, if the "corn only" ration is persistently fed, death will result; something is lacking. "Corn alone" does not mean corn on grass, or corn with cattle droppings—but absolutely nothing but corn, water, and fresh air. The more striking deficiencies of corn as a growing feed may be enumerated.

#### 1. Lacking in protein.

A glance at Table 1 shows corn to contain only 10 per cent. protein in a hundred pounds and for every pound of protein there are only about 7.79 pounds of carbohydrate equivalent. The very young growing pig should have a pound of protein for every 4 pounds or thereabouts of carbohydrates, hence one readily realizes that corn to be physiologically efficient must be supplemented with a feed containing a large amount of balancing protein.

#### 2. The quality of protein in corn is inferior.

This is especially true of about 50 per cent of corn protein known as zein, which lacks three protein building stones known to chemists as amino-acids, or namely, tryptophane, lysine, and glycocoll. An animal cannot grow without tryptophane, much less live and thrive. Recent researches of Osborne and Mendel have shown that maintenance or the maintaining of the live weight is not possible in rats without this complex tryptophane. They have also demonstrated that the lysine is indispensable for growth. In other words we have here two components of protein which if lacking will bring on death eventually. The thing to do is to supply the deficiencies of the protein as fed in corn and the cereal grains. Waters of Kansas has just demonstrated that if casein, one of proteins which he has separated from milk, is added to a corn ration that wonderful results follow; instead of having pigs die as on the corn alone diet the casein with corn makes them live happily—and grow so that they reach the marketable weights of three hundred pounds in about ten months or thereabouts. The casein of milk runs rich in tryptophane and lysine in comparison to corn—which probably tells the tale. The other 50 per cent approximately of the protein in corn, in addition to the zein, is of fairly good quality. The proteins of meat and milk are especially efficient because they contain all of the building stones which are necessary to build up the proteins of the animal body.

#### 3. A scarcity of mineral nutrients.

Chiefly calcium, which comprises 40 per cent of the dry ash of bone. It is impossible for the young pig to eat enough corn to supply the calcium to his body; he must get the calcium elsewhere. Other mineral nutrients, such as phosphorus, magnesium, and possibly potassium sodium, chlorine, and sulphur, are very likely present in too small an amount for optimum production. Common salt added to a corn ration at the Iowa Station produced favorable results; and salt is a combination of sodium and chlorine.

#### 4. Presents an acid ash.

This is especially true when the protein is high. Acid ash is undesirable in a ration as it is in a productive soil. For optimum results we must neutralize this acid condition by proper choice of supplements. It may be that the predominating reason why the farmer feeds lye to his hogs is because lye is an alkaline ash, having a sweetening action upon the acid ash of the corn. Too much acid, such as corn furnishes, interferes with protein assimilation; hence it is highly desirable that a supplement be supplied which corrects this deficiency.

(To be continued.)

## JACKSONVILLE STATE HOSPITAL DAIRY HERD

The herd includes sixty-five cows, giving milk, with a record of 8,900 pounds per year. Some 2-year-old heifers have a record of 40 pounds, or 5 gallons per day. Eleven thousand eight hundred and seventy-six pounds is the best record of any cow in the herd in two years.

F. H. Thies, in charge, has had ten years' experience in the dairy business, before coming to the state institution, and is proficient in every respect. The milking barn is double deck and has room for 68 cows at one milking. The cows go to the upper deck, on an inclined plain, the lower deck being on a level with the ground. Old style stanchions are used, which answer for milking, but the swinging stanchions are preferred if the cows are left in the stalls over night.

At the institution are 22 sucking calves under 4 weeks old and are let to the cows until the above age. After, they are placed to themselves and are soon taught to eat. The mother's milk is preferred to calf meal or any other kind of feed till weaning time. Fifteen years old is the longest record at the institution. A cow is at her best at 6 years of age, and begins to fail at 8 or 9 years and is then fattened for beef. They have eight 2-year-olds, which will soon be fresh, which is a good age, if the heifers are well developed. The milk is weighed, and reports are sent regularly to Springfield. There are 122 head of cattle and 16 horses at the institution. Mr. Thies likes the Jersey cow, but prefers the Holsteins for institution purposes. Some of the cows are thoroughbred, while some are grade stock.

Cows while milking are fed a balanced ration of ensilage, gluten, oil meal and bran and sometimes oats. One pound grain to three pounds milk given is fed to each cow, and all the roughness she will eat. Alfalfa hay is preferred for making milk. A hay barn is provided for feeding hay and an open shed for feeding roughness.

They keep two bulls, an old and young one. Mr. Thies thinks it a mistake to dispose of a bull after one year's service, if his record is good, a good record being better than a pedigree. Jersey cows are most economical for butter. Holsteins are best for dual purpose cows. It will pay anyone to visit the dairy barn at the institution. The institution has 36 young hogs of the belted type, that will weigh about 150 pounds each. They like the Poland China and believe in double treatment for cholera.

## UNIQUE ACT AT THE GRAND.

Manager Johnson has a unique act booked at the Grand this week. The act opened Monday afternoon. It is a novelty act, given by the Enos. The act is novel in that it opens with a dance which is something unusual for an acrobatic act. The pair then do some great stunts with a perch, the woman doing the balancing and man the aerial work. The act met with favor Monday afternoon.

## CLEANSE THE BLOOD BANISH RHEUMATISM

Rheumatism Due to Bad Blood

Thousands have been made well. People in the poorest health, suffering from Rheumatism, with whom pain was constant. Who believed that their vitality was sapped beyond repair. It was proven to them that the cause of their trouble was the blood; that Uric Acid, the most faithful ally of Rheumatism, had gripped them. The poison in the blood had sapped its strength. The weakened blood had allowed poison and impurities to accumulate, and all energy was gone. They felt "poorly," were listless, pain was ever present, with poor digestion and dyspepsia. They tried S. S. S.—nature's blood tonic. They gave up drugs. This compound of nature's remedies of roots and herbs did what drugs failed to do. It literally washed the blood free from poison, and with the flow of pure blood came back health, strength, vigor and happiness. Get S. S. S. from your druggist. Insist upon S. S. S. If yours is a long standing case, write for medical advice to Swift Specific Co., Atlanta Ga., but begin taking S. S. S. at once.

## STALLINGS SIGNS FIVE YEAR CONTRACT TO MANAGE BRAVES

BOSTON, Jan. 31.—George T. Stallings has signed a contract with the new owners of the Boston Nationals to manage the team for five years, it was announced today. His salary, considerably in excess of that which he obtained under the previous contract is said to be greater than that ever paid any manager or player, except possibly Manager J. J. McGraw of the New York Nationals. It is estimated that the figure approximates \$20,000 a year.

The manager of the Braves was already under agreement to direct the team for two more years, but the new owners, headed by President, Percy D. Haughton, wanted to be assured of his services for a longer term according to Business Manager Walter E. Hapgood. The subject was discussed during Stallings' recent visit here, but it was only today that his signed contract, for the new engagement was received.

## DUPONT COMPANY

ISSUES STATEMENT.  
Wilmington, Del., Jan. 31.—The DuPont Powder company with headquarters in this city, issued a statement today in which the officials denied that any of the recent fires and explosions at the various plants which resulted in many deaths and injuries, had been caused by spics or any influence over which they could be expected to have control. The statement was prompted by Friday night's fire at the Carney's Point, N. J., plant, opposite Wilmington.

Harry Heintz of Toledo, Ohio, has been enjoying a visit of two days with home friends. He was accompanied to city by Frank Schramm, a young man well gifted in the fruit and flower business.

## Tough, Rough Cough? Croupine Is Magic!

The New Discovery That Stops Coughs Almost Instantly.

Croupine is the first real "quick-stop" for coughs, whooping cough and bronchitis that has ever been discovered. There are lots of "reliefs" for

CROUPINE Will Stop That Head-Splitting Cough In a Few Moments.

coughs that contain "dope," opiates and the like. Croupine is wonderful because it contains no opiates or habit-forming drugs of any kind whatsoever. It is as safe as water for the youngest child or oldest person. It works at once, loosens the phlegm instantly and the most deep-seated, rasping cough, throat-tickle or bronchitis stops in a few moments. For croup in children it rarely fails to stop the coughing instantly. Why waste time and money with cough-drops and other mere "reliefs," get Croupine and put a quick stop to your cough right now. Money back if not satisfied.

Croupine is sold by all druggists, 25c and 50c a bottle, or sent direct by J. D. Knott & Co., Monticello, Ill.

For sale in Jacksonville by Lee P. Alcott and other leading druggists.

## SPORTING NOTES.

New York, Jan.—President David L. Fultz, of the Baseball Players' fraternity, has expressed his appreciation of the proposition to include a player among members of the National Commission when that body is reorganized early in 1917. Both Pres. Ban Johnson of the American League and Pres. Tenor of the National League have expressed the opinion that a representative of the players in this baseball court of last resort would perhaps make for more harmonious relations between baseball employers and employees. Tenor, however, qualified his statement by saying that he did not think that the players' representative should be a member of the Fraternity.

On this point Pres. Fultz disagrees with the former governor of Pennsylvania and present leader of the senior league. Fultz rises to ask how player, who did not represent anything except players in the abstract, could hope to cope with the other members of the Commission all of whom would represent established organizations with both money and prestige at their back. It looks as though Fultz's legal training had enabled him to uncover a blow hole in the plan. If the players' representative on the Commission was to accept instructions from the individual players, he would have several thousand opinions on every question that arose.

With the prestige which comes from winning intercollegiate championships on land and water, Cornell is having little difficulty in recruiting big squads for the various sports teams now in training. Coach Moakley stated recently that he expected to have 500 men out for the track team this season in place of the 359 that reported for work a year ago.

The Contest Board of the American Automobile Association announces its preliminary racing schedule for the coming season with twenty events either officially sanctioned or dates tentatively awarded. The program as drawn up at present opens with the Indianapolis Speedway on October 19. A number of additional meets are expected to be added to the schedule as the season progresses. The list as arranged to date is as follows: Feb. 22: Speedway—Los Angeles; May 6: Speedway—St. Louis; May 13: Speedway—New York; May 30: Speedway—Indianapolis; June 10: Speedway—Chicago; June 28: Speedway—Des Moines; July 4: Speedway—Minneapolis; July 4: track, D'Alene, Idaho; July 4: Speedway—St. Louis; Races; July 15: Speedway—Omaha; Aug. 5: Speedway—Tacoma; Aug. 18-19: Big Ten Road Races; Sept. 4: Speedway—Indianapolis; Sept. 16: Speedway—Des Moines; Sept. 23: Track—Trenton, N. J.; Sept. 30: Speedway—New York; Oct. 7: Speedway—Omaha; Oct. 14: Speedway—Chicago; Oct. 15: Speedway—Indianapolis.

At the present time it appears as though the entry of several of the leading eastern golfers in the third annual tournament for the championship of Cuba, will be the nearest approach to an international sports contest on the calendar for 1916. The play, which will begin on the course of the Havana Country Club on Washington's Birthday, should result in some high class golf. There are a number of American and English residents of Cuba who play an excellent game and being thoroughly at home on the Country Club course, which is far from being an easy eighteen hole circuit, they should be able to give invaders from the States a hard battle for titular honors.

Athletic activity and competition has been entirely abandoned at Washington and Jefferson College as the result of an outbreak of scarlet fever. Some of the football teams that the Washington and Jefferson eleven crushed last season are of the opinion that the epidemic arrived several months too late.

Two western athletes appeared in New York this week and lived up to the reputations which preceded them, something of a novelty for the sports followers of that city. Joe Stoeck, the Dodge, Neb., wrestler, showed that he was master of the mat game by quickly throwing Morde Henderson and Howard Drew of the University of South California proved that as a sprinter he was headed toward a successful comeback after an off season.

New York, Jan.—Amateur Athletic Union officers are considering the question as to whether George F. Goulding, of Toronto, Canada, should receive special credit for his feat in recently equalling his indoor mile walking record of 6m. 28s., made in this city under the International Athletic Federation rules. In this event Goulding beat equalled his previous record made at Buffalo in 1911 altho he walked close to eight yards further in New York than he did at Buffalo owing to the difference in the system of track measurement.

The case has been the subject of much discussion among track and field authorities and the consensus of opinion among the experts is that since Goulding, under the international system of track measurement, which now prevails, covered nearly eight yards more than he did in the Buffalo event, special mention should be given the performance which is virtually a new record. The new rule, which calls for a margin of twelve inches instead of eighteen inches from the inner edge, actually compels the walker or runner to cover a fraction over seven yards to the mile more than the old rule required. The writing of the rule, to the casual reader, would make it appear that under the new conditions the athlete would save a few yards in a mile.

One of those who did not know just how the track is measured and

where the new rule requires a competing athlete to cover more space and was one of those interested in the discussion asked an explanation from William H. ("Sparrow") Robertson, the well known athletic authority and track builder, who has had years of experience in preparing and measuring indoor and outdoor tracks.

"This question comes up very frequently," said Robertson in reply, "and an erroneous impression in regard to it seems to prevail. In measuring a track for an exact mile or any part of it the correct distance is marked by a line and then under the rule, the curb or innermost limit commonly called the 'pole' is set up or painted distinctly, twelve inches inside of the correct measurement line. Formerly a space of eighteen inches was the rule so it can readily be seen that the new conditions compel the walker or runner to cover more ground by several inches to the lap than under the eighteen inch rule."

The sale of the Chicago National League Club to Weegama and others is supposed to mark the passing, temporarily at least, of Charles Webb Murphy and many stories are cropping up regarding the former president of the Cubs. One has to do with a hoax which he perpetuated upon baseball correspondents and prominent fans some years ago. Shortly before the opening of the National League season all were in receipt of an annual pass to the Chicago hall park, regardless of the city in which they lived. In each case the card bore the number "1" carefully stamped in the space allotted for the serial number. The recipient immediately assumed that in making out the cards Murphy had thought of him first. It was not until midseason that a discussion of the point brought about a general comparison of cards and the discovery that all the passes carried but one figure and that was "1".

## GIRLS! GIRLS! TRY IT! STOP DANDRUFF AND BEAUTIFY YOUR HAIR

Hair Stops Falling Out and Gets Thick, Wavy, Strong and Beautiful.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine" hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it thru your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excess oil and in just a few days you will have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty soft, hair and lots of it surely get a 25-cent jar of Knowledge Danderine from any druggist or toilet counter, and just try it.—Adv.

## MORGAN COUNTY DOLLAR FUND FOR RED CROSS WORK

The history of the individual follows the same law of evolution as the life history of a species, and history of a nation. The actions and reactions, the physical and spiritual changes in the history of a nation can be duplicated in personal experience.

As an instance of this it is interesting to note the development, change and growth in the attitude of the American people toward the war relief work in Europe. When the first bulletins of suffering and need in Belgium and France were posted; America, especially the extreme west and east, hastened generously to pour material and national sympathy upon the afflicted.

We can all remember the furor of "war benefits," subscription lists and "knitting teas" which stirred the public through the first winter of the war. But, alas, with the discouraging continuance of an awful, cruel war, the public mind grew indifferent and in turn the individual became absorbed in his personal problems and pleasures and the organizations struggling to relieve the fearful suffering in the field of war were forgotten. Today the Great National Red Cross society which has in every great calamity given systematic, honest and skilled relief is suffering for lack of funds. It has recalled many of its nurses and surgeons so sorely needed in Europe and is unable to meet even a small part of the demand for medical and surgical assistance.

A committee of Jacksonville citizens, believing that this vicinity has failed to recognize this great need, has published a letter of appeal for what is to be called the Morgan County Dollar Fund. This letter will soon be in the hands of the Jacksonville residents and should receive their serious attention.

## CARNATION DAY IN HONOR OF MCKINLEY.

Washington, Jan. 29.—The anniversary of the birth of William McKinley is being observed throughout the capital city today. The day has become known as "Carnation Day" when public men and citizens who knew the martyred president wear the carnation in his honor. Former Vice President Charles W. Fairbanks and Justice Day, president of the Ohio society of Washington, will be the speakers at the formal memorial exercises.

Canton, Ohio, Jan. 29.—Men prominent in the Republican party will come here for the annual McKinley banquet to be given on Tuesday evening. The date was changed from Tuesday to today for the convenience of the orators. Among the speakers will be Senators Lawrence V. Sherman of Illinois, Governor Willis of Ohio, and Congressman Nicholas Longworth of Cincinnati.

## YALE MAN WEDS.

ST. PAUL, Minn., Jan. 29.—Miss Mary Glide Griggs of St. Paul, one of the prettiest and most popular of society girls in St. Paul, will be wedded this evening to John Edward Barbooy of Reading, Pa., a graduate of Yale. The wedding takes place in the House of Hope Presbyterian church at 6:30. Miss Elizabeth Griggs, Miss Mary Withers of Kansas City and Miss Martha Wagner of Tacoma are among the bride's attendants. Leonard C. Hanna, Jr., of Cleveland, will be best man, and the ushers will include John Hays Hammond, Jr., the inventor, and other Yale classmates of the groom.

## DEFEAT MOVE TO EXCLUDE GUARDSMEN

Indianapolis, Ind., Jan. 31.—Those in control of the National affairs of the United Mine Workers of America won another victory in their convention today when they rallied their forces and defeated a resolution designed to exclude National guardsmen and members of state constabularies from the organization.

Men may differ about preparedness for war, but all of us believe in preparedness for most things.

It is preparedness that sends the runner over the tape ahead of his rivals. It is preparedness that enables the advocate to sway judge and jury with his logic. It is preparedness that enables the manufacturer to out-distance his competitors. It is preparedness that has made the General Roofing Manufacturing Company

## The Big Gun of the Roofing Business

The General's preparedness consists of the three largest and best equipped roofing and building paper mills in the world.

Each is a complete producing unit, manufacturing the full line of the General's products. Each is advantageously located in the territory it serves, has cheap fuel and favorable transportation facilities.

The General buys raw materials in enormous quantities and far ahead. This means favorable buying and the pick of the market.

With manufacturing so perfected and cheapened, the highest quality is produced at the lowest cost.

This preparedness enables the General to make one-third of all the rolls of roofing used. All over the civilized world you will find

## Certain-teed Roofing

The quality of roofing cannot be determined by looking at it, nor by twisting or tearing. Its durability can not be tested except in actual use over a period of years.

Contrary to popular belief, roofing does not wear out—it dries out. CERTAIN-TEED Roofing is especially made to defeat this process of drying out, as it is thoroughly saturated with our properly blended soft asphalt and coated with a blend of harder asphalts, which keeps the soft saturation—the life of the roofing—from drying out. This produces a roofing pliable, yet durable, and impervious to the elements. CERTAIN-TEED products are made under the supervision of our board of graduate chemists, and are the result of long experience in mining, refining, and blending of these materials.

CERTAIN-TEED Roofing is guaranteed to hold "its place in the sun" for 5, 10, or 15 years according to whether it is 1, 2, or 3 ply, respectively. Behind this guarantee stands the responsibility of the world's largest Roofing and Building Paper Mills. Past experience has proved that our guarantee is conservative, and that the roofing will outlast the period of the guarantee.

There is a type of CERTAIN-TEED, and a proper method of laying it, for every kind of building, with flat or pitched roofs, from the largest skyscraper to the smallest structure.

CERTAIN-TEED Roofing is sold by responsible dealers all over the world at reasonable prices.

You can't always make everything "just so." Sometimes you will get in more shortening than usual; or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

## KG BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. The raising is sustained until the dough is cooked through.

Housewives who use K C never have "bad luck" with their baking. Try K C at our risk. Your grocer will refund your money if you are not pleased in every way.

## True Secret of Keeping Youthful Looking

(The Beauty Seeker.)  
"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face."  
"But to get liver and bowels working as they ought, without producing evil after-effects has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though, of course, it is not to be classed with the real calomel of mercurial origin. There is no habit-forming constituent in 'Santal' tablets—that's the name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Santal tablets, which may be procured from any druggist—a dime's worth will do—will prove a revelation to any constipated, liver-troubled person."

## Mr. Went-And-Cut-It —Here's Mr. 'Gets-It'

The New Plan Corn Cure That's as Sure as the Rising Sun.

"Glad to meet you!" says the razor to the corn. "I'll bleed for you!" says the corn to the razor. Razors and corns love each other. Corns love to be cut, picked, gouged, salved, plastered and jerked out—they grow faster. Mr. and Mrs. Went-And-Cut-It realize it now—they use "Gets-It!" instead—it's the wonderful, simple corn-cure that never fails. It means good-night to plasters, salves, diggers, razors and toe-bundling. You can wear smaller shoes. Your corns will come right off, "clean as a whistle." Never inflames healthy flesh. The world's biggest selling corn cure. "Gets-It!" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

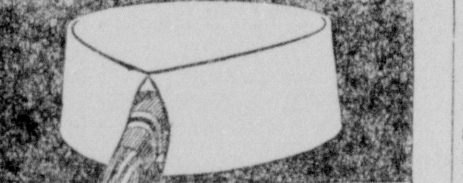

Sold in Jacksonville and recommended as the world's best corn remedy—by Armstrong's Drug Store—J. A. Obermeyer.

"Why, O Why, Did I Do It? 'Gets-It!' for Me After This—If I Live!"

## CANTON BUSINESS MAN SUFFERED 20 YEARS

M. Gibson Swiftly Restored and Feels Like Young Man Again.

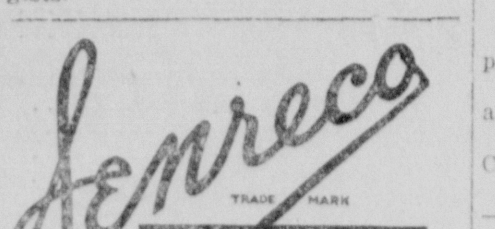

M. Gibson, a business man of Canton, Ill., for 20 years was a sufferer from stomach disorders. He took many treatments and spent large sums seeking relief.

One day he tried a dose of Mayr's Wonderful Remedy. The results he sought came at once. He found quick relief. Telling of his experience, he wrote:

"Your medicine is the best on earth. I have spent hundreds of dollars on medicine, doctor bills and hospital expenses. I have been sick for 20 years. Since I took your medicine I feel like a young man again."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfied your money will be returned.

**A DENTISTS FORMULA**

"EAST STATE STREET AGAIN."

Some days ago I wrote to Mrs. Henry C. Wiswell, now of Rochester, Mo. She was Miss Mary E. Brown, daughter of Judge William Brown, lawyer and banker, long one of the leading citizens of Jacksonville.

These Browns lived from 1853 to about 1871 in the house built by the judge, this house being then the second one east of Westminster street, and on the south side of West State street. This house was afterwards occupied by Mr. Colby, then by Mrs. Thomas Turley, and last by the E. S. Greenleafs, and it burned Thanksgiving day of 1911.

In this house Miss Mary E. Brown was married to Mr. Henry C. Wiswell, who then resided with his father, Mrs. Semantha Wiswell, at the corner of Westminster and State streets. The Hughes house is now on that spot, the Wiswell house having been moved two doors south on the same lot and now fronts west.

Miss Mary E. Brown was graduated from Jacksonville Female Academy in the class of 1861. The only member of the family now resident here is William Finley Brown.

This may seem some distance from East State street, but will explain to younger and newer residents of Jacksonville who Mrs. Wiswell is, the only those who know her will understand how highly Mrs. Wiswell was esteemed by her friends and acquaintances here.

Mrs. Wiswell was good enough to reply to my questions in a letter, part of which follows:

"Rochester, Boone County, Mo.  
"Dear Sir: My earliest recollections are of living in the house on East State street, built by my father's mother, which we generally called grandma's house. Father built the house diagonally across the street (on the north side), which was a house with a basement, with a high stoop built over an area, being the outside entrance to the basement.

"In after years the Christian church was built on the lot on the north side of the street. My grandmother did not live many years in Jacksonville, but came to Missouri. She lived with daughters in Booneville, about twenty miles from our home.

My father then moved to the house occupied by his mother, just across the alley (west) from (the present) Centenary church. A cousin of my father's, coming from Lexington, Ky., went into the practice of law. Father sold him grandma's house and father moved again into his own house, where we lived until we moved to the West State street house, opposite your home.

The house occupied by Miss Peck as a millinery establishment (where Price's jewelry store is now) was lived in by Dr. James Finley, a brother of my mother's. It was in that house my mother and father were married. They moved into the West State street house in 1853.

Having been born and lived in Jacksonville almost half of my life, I naturally feel an interest in the place, altho nearly all of the older friends have passed away.

I passed thru a very severe operation in October and do not seem as strong as I used to, but still feel a deep interest in all that is transpiring. I am glad to feel that acquaintances had a friendly feeling toward me and I would love to meet them again."

This letter will not only add light to the story of East State street, but will be a matter of pleasure to Mrs. Wiswell's friends in hearing from her.

The house in which Mrs. Wiswell says Judge and Mrs. Brown were married was the pretty, one-story, double white frame, first west of the first alley crossing East State street, east of the square. I think Mr. William Geers, father of Mrs. Richard and of Mrs. Anne Yates, built this house.

**BRIDGE COMPANY**

**ELECTED OFFICERS.**

The annual meeting of the stockholders of the Illinois Steel Bridge company was held Monday when W. E. Crane, Nelson McMurphy, T. A. Chapin, E. E. Crabtree and Charles Rabjohn were elected directors for a term of one year. Subsequently the directors met and re-elected the following officers:

President—W. E. Crane.  
Vice president—Nelson McMurphy.

Vice president and general manager—T. A. Chapin.  
Secretary and treasurer—E. E. Crabtree.

Assistant secretary and treasurer—T. W. Beadle.

The usual six per cent dividend was declared. The year's report indicated a prosperous business and the prospects for 1916 are excellent.

**CHAMBER OF COMMERCE**

**ANNUAL MEETING**

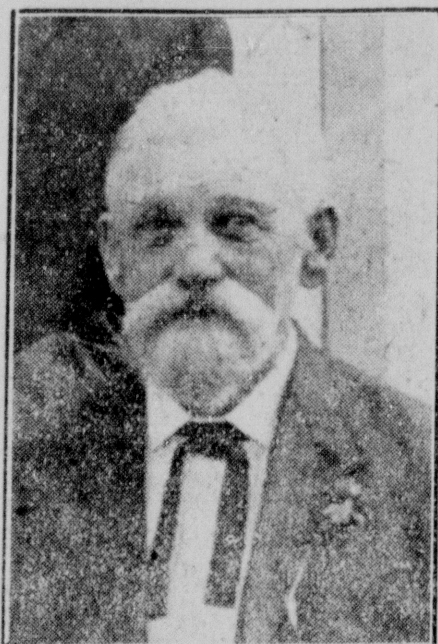

As already announced, the annual meeting of the Chamber of Commerce will be held tonight, with a dinner at the Peacock Inn to be served at 7:30 o'clock. Reports from officers and from the department chairmen will be made and seven directors will be named to fill the positions of those whose terms have expired.

It has been stated that present directors will do nothing about the selection of successor to Carl H. Weber, who recently resigned as secretary, but will leave that vacancy to be filled by the incoming directors.

**PLAN TRIP TO CUBA.**

Mr. and Mrs. Nelson McMurphy will leave tomorrow for St. Louis and from there will go to New Orleans. Then they will sail for Havana, Cuba, and after a stay there will make the return trip to the eastern coast. They will be away from Jacksonville about five weeks.

## Were Married Fifty Years Ago

V. E. Higgins.

Mrs. V. E. Higgins.

Mention was made in the Journal Sunday morning of the fiftieth wedding anniversary of Mr. and Mrs. V. E. Higgins, Jan. 31st. Mr. and Mrs. Higgins entertained a company of relatives at their home last night and the occasion was notable in various ways.

Several of those who were present as guests at the ceremony when Mr. and Mrs. Higgins were married enjoyed the hospitality of their home last night. A number of gifts gave material expression to the good wishes of the guests.

**IN MEMORY OF MRS. WALTER FEARNEYHOUGH**

"Leaves have their time to fall  
And flowers at the north wind's breath,  
But Thou hast all seasons  
For thine own, O Death."

Forty years ago the 30th of January there came into the home of Mr. and Mrs. Fred W. Schofield, living in Lynnville, a little daughter. They named her Harriett Augusta, and she was ever a joy and delight to her parents. While quite young she gave her heart to her Master and united with the Lynnville M. E. church, always remaining a faithful member. During her life, after reaching womanhood, she became teacher in the public schools of Morgan county, teaching for six years, near her home. She was held in high esteem by patrons and pupils alike.

In March, 1903, she was united in marriage to Walter Fearnelyough of Lynnville precinct. Their home was blessed with five children, who with the bereaved husband, are left to mourn the loving mother's death. Her illness and suffering were borne with Christian fortitude and she passed away at her home Jan. 20, 1916.

The funeral services were conducted from the Lynnville M. E. church Jan. 21 and interment was made in Diamond Grove cemetery. A large number of relatives and friends gathered at the church and many followed the body to its last resting place, a mute testimony to the beautiful life she had led. She was of a quiet retiring disposition and loved by all who knew her. Thru the years to come her memory will be to all who knew her as the fragrance of some sweet flower. May her life be an example to all that they may endeavor to meet her in the better land.

**PLACED UNDER BONDS FOR THREATS.**

Allen Miller was arrested Monday on a warrant sworn out by Frank DeBoys charging threats to kill. He was taken before Justice Dyer who placed his bond at \$300 to keep the peace. Miller was unable to give bond and was given his choice of going to jail or leaving town. He chose the latter alternative and it was expected that he would shake the ice of Jacksonville from his feet and be on his way before sunrise this morning.

**"SURVIVAL OF THE FITTEST."**

A proprietary medicine like everything else that comes before the public has to prove its merit. It has to meet competition. The law of the "Survival of the Fittest" applies to this as to other things. The fact that Lydia E. Pinkham's Vegetable Compound after forty years of success is still one of the largest sellers proves that it is a dependable, standard remedy for the ailments of woman-kind, and one in which they may have perfect confidence.—Adv.

## "TIZ" PUTS JOY IN SORE, ACHING FEET

"My, How 'Tiz' Gladdens Tired, Swollen, Burning Feet—It's Glorious!"

Ah, what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous excretions which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your feet in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole box of foot comfort for only 25 cents. Think of it.

**TRADE STATISTICS FOR 1915**

American exports for December exceeded those for any previous month in the country's history, according to figures just made public by the Bureau of Foreign and Domestic Commerce. The total value of the goods shipped abroad for the month is placed at \$359,301,274, which brings the total exports for 1915 to \$3,550,925,399, or about a billion dollars more than was ever before exported during a like period.

The excess of exports over imports for 1915 was \$1,772,399,538, which is a striking increase over the average of about \$450,000,000 for a number of years before the war started. The excess of exports over imports for December alone was \$187,459,609, an increase of about \$47,000,000 over December of the previous year.

The import trade continued to gain during December and the total of \$171,841,605 was larger than for any other month of the year, and is an increase of \$57,185,120 over the total imports for December, 1914. It is only \$12,183,299 short of the total for December, 1913, which was the largest in the history of our import trade. The total value of articles imported during the calendar year 1915 is placed at \$1,778,665,855, which is the lowest figure for a number of years. In 1914 the imports were placed at \$1,739,276,001; in 1913 at \$1,792,596,480; and for 1912, at \$1,818,973,955. Duty free imports comprised 71.7 per cent of the December, 1915, imports.

Gold imports in December last were valued at \$45,412,657, as compared with \$4,109,063 in December 1914. The year's gold imports aggregated \$151,954,590, as against \$57,387,741 for 1914. Gold exports totaled \$11,889,255 for December and \$11,425,918 for the year ending with December, 1915. The net inward movement of gold for 1915 was \$129,528,672, compared with a net outward movement of \$195,228,415 in 1914.

**WAS AWARDED DAMAGES.**

Mrs. Josephine Dice brought suit Saturday in Justice Dyer's court against the Wells-Fargo Express company for damages to a package which was sent to her by her daughter at Cleveland, Ohio. Mrs. Dice alleged that in the package in addition to several books was a football and a bottle of whiskey. When she received the package Mrs. Dice alleged that the bottle of whiskey and the football were missing. The court after hearing the evidence took the case under advisement until Monday when he rendered a verdict, giving Mrs. Dice damages in the sum of \$9. The attorneys for Mrs. Dice were William N. Hargrove and John M. Butler, while the attorney for the express company was Carl M. Robinson. It is not known whether or not the company will take an appeal.

STATE INSTITUTION PUBLICITY

Editor of the Journal:  
I have been greatly interested in an editorial in the Journal, in which reference is made to the present policy of publicity in the state charitable institutions. You express the fear that the public will get the idea that nothing was done in these institutions in years past and that the present campaign is for political purposes.

Publicity, as now practiced in the state charities, is a development. Those who have been back of it have been actuated by the highest and best motives and never by selfish and narrow political consideration. On the contrary one of the motives has been to keep politics out of this service.

There is no intention to minimize the efforts of the past. Energy one in the service today recognizes the value of the great men and women who founded these institutions and placed them in the front rank of the states.

We are very conscious that during these years there have been progress and advance. What has been accomplished in the last few years has been possible because the foundation has been growing through the years. No one believes; no one is mindful of, the labors of others, many of whom have passed away.

We who believe in publicity have had this in mind; primarily, to awaken the public mind to the seriousness, the magnitude and the variety of the problems with which the state is dealing in these institutions; second, to arouse the people to a sense of their responsibility, and finally to lay the foundation for preventive work, which after all is the only remedy for our institutional burdens.

We have believed that these institutions belong to the people and that the people should know all about them. That we have been right in this position is amply demonstrated by the avidity with which all agencies of publicity are seeking the news and informative matter which is being sent out.

The public has never been so well informed about these institutions and especially about the causes which have filled them so full. Such information can not help but have a far reaching effect for good. The state's policy and its effort are being extended to establish among the people a spirit of confidence in these institutions without which progress must be slow. That this is being accomplished is indicated by the growing numbers of voluntary patients and by the disappearance of the old dread of committing friends or relatives to them. There has been a very marked change everywhere in this respect in very late years. The tolerant attitude of the public toward the untoward happenings in these institutions is also another evidence of this growing confidence, due almost wholly to the belief that the truth is told as to the circumstances and nothing is veiled in mystery. In this policy of publicity it has been the state's desire and intention to conceal nothing, to throw open the doors, to invite the public in to see for themselves and to give the truthful facts without effort to minimize or mitigate or excuse any happening within their walls which may not be of a complimentary character. We believe in this sort of publicity and are practicing it for the sake of advancing the institutions, and making them better, for we know that if the public knows them, they must be as good as they can be made. The development of a public opinion that will demand the very highest order of service will elevate all our social standards, and unconsciously will in the end reduce the burden.

We have not conceived the idea that our institutions or their service are perfect. We recognize many weaknesses in our system, involving problems which the ingenuity of man has not yet solved, but it is the intention to give the Illinois service the benefit of every bit of knowledge obtained by others and to contribute something from our own researches and study to a great cause in which every state and nation is engaged.

Respectfully yours,  
A. L. Bowen,  
Executive Secretary State Charities Commission.

## FOT BRONCHITIS, PAINFUL COUGH, WHOOPING COUGH AND COLD

Cheapest Remedy Made at Home—128 Teaspoonful for 50 Cents

When in need of a remedy for the treatment of Bronchial Affections, such as Bronchitis, Whooping Cough, Croup, Stubborn Coughs, Colds or Hoarseness, don't simply ask the druggist for a "Cough Medicine" but get the best. Tell him to give you Schiffmann's New Concentrated Expectorant, instead of being induced into buying something else purely on the strength of some testimonials or the exaggerated claims of the manufacturer. The same "Money Back" guarantee goes with every bottle of this remedy sold by M. E. Gilbert as does with Dr. Schiffmann's famous Asthmator and your money will be refunded, if it does not give perfect satisfaction; in fact even more, if it is not found the best remedy ever used for these affections. In buying this new remedy, besides securing the guarantee this druggist gives, it will likewise be found the most economical to use, for the reason that one bottle (50 cents) worth makes a full pint (128 teaspoonful) of the most excellent cough medicine, after being mixed at home with one pint of granulated sugar and one-half pint of water. One bottle will probably, therefore, be sufficient for a whole family's supply the entire winter, while the same quantity of the old, ordinary ready-made kinds of medicine would cost between \$2 and \$3. It is prepared from strictly harmless plant contains absolutely no chloroform, opium, morphine or any other narcotic or injurious drugs as do most cough remedies, and it can be safely given to children with perfect safety. It is pleasant to take and children are fond of it. Absolutely no risk whatever is run in buying this remedy under the absolute guarantee this druggist gives. R. J. ## MISS LULU ANDERSON PASSED AWAY SUDDENLY

FOUND UNCONSCIOUS AND DIES  
BEFORE PHYSICIAN ARRIVES.

Deceased Came Here From Carrollton a Month Ago to Reside With His Sister, Mrs. A. Wharton—Coroner Wright Will Hold Inquest.

Miss Lulu Anderson of Carrollton died suddenly at the home of her sister, Mrs. A. Wharton, 808 South Church street, Monday evening about 6:30 o'clock. Miss Anderson had been ill with a severe cold for some time, but her condition was not considered serious. When her sister discovered her condition she immediately telephoned Dr. H. C. Woltman. When Dr. Woltman arrived at the residence life was extinct.

Miss Anderson came here from Carrollton about a month ago to live with her sister. She had been in poor health for more than twenty-five years. Recently she contracted a severe cold. She had been confined to her room for some days. Monday afternoon Mrs. Wharton made a cup of cocoa and took it to her sister's room. Later she took up a preparation for her to apply to her jaw. Apparently her condition was not serious. Shortly afterward she went to the room and found her unconscious. She became alarmed when she could not arouse her and called a physician.

Deceased was born in St. Louis thirty-six years ago. She had recently resided in Carrollton. She is survived by her mother who resides in Carrollton, one brother, E. A. Anderson of Oklahoma City, Okla., and one sister, Mrs. A. Wharton of this city, at whose home she died.

The circumstances surrounding her death were such that the coroner was notified. Coroner George W. Wright went to the residence and had the remains removed to the undertaking establishment of J. G. Reynolds. A jury was empaneled consisting of James Bell, Arthur Bell, Louis Tendick, John W. Boston, Henry Tendick and W. W. Hanback. This jury will meet this morning at the Reynolds undertaking establishment to hold an inquest. The remains will then be taken to Carrollton for interment.

## UNION DISCUSSED BY MEMBERS OF TWO CHURCHES

Joint Committee of State Street and Westminster Met for Conference—Not Details Considered.

Sunday afternoon at 3 o'clock an informal meeting of the committees appointed by the officers of Westminster and State Street Presbyterian churches to discuss the advisability of a church union was held at Westminster church. W. T. Brown was chosen to preside. Two hours were spent in discussing the question, all of those present expressing their views. The purpose of the meeting was not to talk over any special plan of union but rather to get the ideas of those present as to whether or not it was advisable to consider a union on any basis.

There are some members in both churches who feel that a union resulting in a larger membership, would mean a greater interest in all things pertaining to the church, since it often happens that enthusiasm in churches, just as in other organizations, increases with numbers. Those who take this view of the matter also remember that the union of the two churches would effect an economic saving, as the facilities of either church would prove ample for the membership of both.

But opposed to this viewpoint there are members in both of the churches who have the conviction that to unite the two organizations would lessen the responsibility of members and that in the change inevitably a goodly number of members would not "unite" with whichever church should be chosen to be maintained. In their opinion also if the churches united the members, aside from feeling less responsibility in other ways, would cut down their subscriptions, having the feeling that so much would not be required of them, and so a period of church lethargy would result.

The uniting of two churches, even of the same faith, is undoubtedly a serious proposition and such difficulties have already been brought to the front that it is generally accepted opinion that the negotiations for union which were started several weeks ago, will come to naught. No special plan had been outlined for a union, and the whole question has proceeded no further than the friendly argument as to advisability. As a result of the discussion, however, it is entirely possible that a larger interest and a greater feeling of responsibility may come to the membership of both churches. Another conference was announced for next Sunday.

## SUPERINTENDENT TO TO MEET SCHOOL OFFICERS

H. H. Vasconcellos Arranges for a Series of Meetings for Consideration and Discussion of Recent Legislation.

Superintendent of Morgan County Public Schools H. H. Vasconcellos has arranged for a series of meetings to be held commencing today with the school officers of the county. Recent legislation will be discussed and other important matters relative to the public schools will be talked over. On Saturday, Feb. 12, will take place the Jacksonville meeting, the exercises to be held in the court house.

The letter Supt. Vasconcellos is sending out follows:

To School Officers of Morgan County:

Dear Sirs—  
I have completed arrangements for a number of meetings with the school officers of Morgan county, for the consideration and discussion of recent legislation, that vitally concerns our work as such officers. The object in having several meetings, in different places, is for your convenience, and you are, therefore, urged to make an extra effort to be present, at some one of them.

All meetings will be held in the school house and will begin promptly at 1 o'clock p. m. as follows:

Alexander, Tuesday, Feb. 1.  
Liberberry, Wednesday, Feb. 2.  
Sinclair, Thursday, Feb. 3.  
Concord, Friday, Feb. 4.  
Woodson, Monday, Feb. 7.  
Murrayville, Tuesday, Feb. 8.  
Mercedosa, Wednesday, Feb. 9.  
Chapin, Thursday, Feb. 10.  
Franklin, Friday, Feb. 11.  
Jacksonville, Saturday, Feb. 12.  
Waverly, Tuesday, Feb. 15.

The meetings will be informal and the subjects for discussion will be: The tuition Act, Duties of Officers Under the Pension Fund Law, Standardization Law, The Sanitation Law, and other subjects of interest. Trusting to see you at one of these meetings, I remain,  
Yours very truly,  
H. H. Vasconcellos,  
County Supt. Schools.

## LEONARD COOPER WEDS MISS GUSSIE WINDSOR

Young People of Manchester United in Marriage by Elder White—Other News of the Manchester Community.

Manchester, Jan. 31.—The marriage of Leonard Cooper and Miss Gussie Windsor took place Sunday afternoon at 4:30 o'clock, Elder White, pastor of the M. E. church, officiating. The bride is a daughter of Mr. and Mrs. Frank Windsor and the groom is the only son of Mr. and Mrs. Stephen Cooper. Both young people are well known in Manchester and community and they will have the best wishes of all their friends for a happy married life.

The marriage was witnessed by only members of the immediate families. They will reside with the groom's parents.

**Manchester Wins Game.**  
Manchester basketball team won another game Friday night in White Hall, the score being 14-10 in favor of Manchester. Several booster accompanied the team there.

Miss Lucile Ambrose spent Friday night and Saturday in White Hall.

## WILL EXCLUDE WINE AT LINCOLN BANQUET

Committee Takes Action on Subject—Women Will Be Admitted to Tables This Year—Plates Will Be \$5.00.

For the first time since the organization of the Lincoln Centennial association in 1909, wine will be excluded from the annual banquet of the association this year, says the Springfield News-Record. The banquet is to be held at the state armory, on Saturday evening, Feb. 12, and women will participate in the gathering. The decision to eliminate wine and to permit women to take part in the observance of the anniversary of the birth of Abraham Lincoln, was reached at a meeting of the banquet committee of which Henry A. Converse is chairman. Tentative plans for the holding of the banquet were discussed by the committee. The banquet will be served at \$5 a plate, and as in the past, the interior of the armory will be elaborately decorated.

**SPECIAL NOTICE.**  
**ALL WINTER LADIES' SUITS, COATS, FURS AND MILLINERY, GREATLY SACRIFICED TO CLEAN UP OUR STOCK.**  
J. HERMAN.

**ROADS VERY BAD.**  
Every day comes stories about the terrible conditions of the country roads and the unpaved streets in Jacksonville are in just about the same shape. Coal firms will not accept orders for more than 25 bushels for delivery anywhere off the pavements, and several instances were reported Monday where empty wagons were stuck in the mud. The indications were that this morning the ground would be frozen hard enough to support loaded wagons and this fact would improve travel conditions slightly, tho not to any marked degree.

We have installed a Bell Telephone, Number 365, Cannon Bros.

The members of Rebekah lodge No. 625 are planning to give a box social in their hall Thursday evening.

## E. H. FLAGGE DEAD AT HOME IN NORTH CAROLINA

Father of Two Methodist Ministers Lived Long and Useful Life—Came to America from Germany.

A telegram was received Monday by Mrs. G. W. Flagge from her husband, Rev. G. W. Flagge, bringing the news of the death of his father at the family home in Brown Summit, North Carolina. It was about ten days ago that Rev. Mr. Flagge went south on account of his father's illness and he was there when the end came.

Ernest H. Flagge was born Nov. 10, 1836, at Wenzel, Germany, and died at his home at the time indicated above. His parents, Henry Franz and Englehard Flagge, came to America and settled near Echartown, in Calhoun county, when a young man. That county continued to be his home until about ten years ago when he removed to North Carolina. In 1864 Mr. Flagge was married to Miss Catherine Stahl and is survived by his widow and the following children: Rev. G. W. Flagge, Jacksonville; Rev. Albert H. Flagge, Assumption, Ill.; Mrs. Fred Roedel, St. Louis; Mrs. Laura Tremain and Dr. Philip Flagge of Brown Summit; Walter S. Flagge of Big Stone, Alberta, Canada. There are also six grandchildren and two great grandchildren.

All members of the family were present when the end came except Rev. A. H. Flagge of Assumption, who was kept at home by the illness of his wife, and Walter Flagge, who is in Canada. The deceased leaves also two brothers, August Flagge of Batchtown and William, whose home is in Kansas.

Mr. Flagge united with the Methodist church in 1862 and had been a faithful and consistent member since that time. While in Calhoun county he for a time held membership with the German speaking congregation of the Methodist church near his home, and later united with the English speaking church. He was a man possessing those sturdy qualities which characterize the German people of his class and he lived a consistent and helpful life. The funeral will be held at Brown Summit today. Rev. G. W. Flagge will start on his return trip to Jacksonville tomorrow.

We have installed a Bell Telephone, Number 365, Cannon Bros.

**HAD NARROW ESCAPE.**

Mrs. H. Donaldson of 236 East Washington street had a narrow escape from being burned to death Saturday night. She lighted a match to find some article and in doing so a lace curtain was caught on fire, a cover of a couch and a comforter were burned. Leonard Hall, who makes his home there, threw several buckets of water on the flames and extinguished them, and to his efforts is due the saving of the house and perhaps the life of Mrs. Donaldson.

**BROKE A WRIST.**

Sunday morning Mrs. Polly Angelo, mother of Mrs. Olive Mulburn, was on her way to church she fell on the ice in such a manner as to break her wrist.

Wellington and Goudy Mayfield of Chicago are visiting their mother, Mrs. Elizabeth Mayfield, west of the city.

## WINCHESTER PREACHERS WELCOME NEW PASTOR

REV. O. L. PRICE ENTERS UPON HIS DUTIES.

Mrs. Morgan Dies at the Family Home in Bluffs—Watson Frost of Winchester Suffers Stroke of Paralysis—Other Scott County News.

Winchester, Jan. 31.—Rev. O. L. Price of St. Louis, who was recently chosen as pastor of the Presbyterian church here, was given a cordial welcome to the city Sunday. He preached both morning and evening. According to a custom the Methodist, Baptist and Christian churches dismissed their congregations Sunday evening and all gathered to hear Rev. Mr. Price preach and to extend him a cordial welcome to the city. He will fill the Presbyterian church pulpit every other Sunday.

**Death of Mrs. Morgan.**  
Word has been received of the death of Mrs. Morgan at her home near Bluffs. She is survived by her husband and eight children, two daughters being married. She was the mother of Mrs. Charles Dates of this city, who was called to Bluffs Sunday on account of Mrs. Morgan's critical illness.

**Stricken With Paralysis.**

Watson Frost, one of the prominent business men of Winchester, suffered a stroke of paralysis early Monday morning at his home. Doctors Fletcher and Miner were called and up till Monday evening he had not regained consciousness.

Miss Mary Trickey's condition remains about the same.

The infant daughter of Mr. and Mrs. Ralph Riggs is reported very ill.

George W. Owings left Sunday for Chicago to see his son, Edmund, who is taking treatment at the Presbyterian hospital there.

Frank Marillie of Jacksonville spent Sunday at the home of his aunts, Mrs. Ada Lankford and the Misses Estis.

Warren Coultas received a car load of mules Monday from Galesburg.

**IF YOU WANT REAL RELIABLE BARGAINS IN WINTER GARMENTS, FURS AND MILLINERY—GO TO HERMAN'S.**

**URANIA LODGE HAS INITIATION.**

Urania lodge No. 243, I. O. O. F., conferred work on a class in the initiatory degree at the regular meeting Monday evening. Nineteen candidates had been secured, but owing to the inclement weather and the fact that several of the candidates live in the country, all of them were not present for the work. After the conferring of the degree refreshments were served, the committee in charge being Hiram Johnson, Walter Huss and Edward Ellis. Those taking the work were Burley Jones, Guy W. Carter, G. H. Kopperl, Fred W. Runkel, C. C. Schureman, Roy Chism, George E. Hall and Charles Rogers.

## Little Editorial

Edited by Myers Bros.

## It Is the Wise Buyer Who Looks Forward

It is out of the ordinary for the average consumer to anticipate his wants—he usually waits until such time as the weather necessitates that he is ready to wear them.

The average consumer does not anticipate for the reason presumedly that "his merchant" is a good buyer and that he will give you the advantage of his buy.

We are now placing a great many advance orders for next winter requirements, an unusual proceeding at this early date. However this early buy to "cover up" on a constantly rising market is our protection to you.

This is one part of a service we are constantly striving to give our patrons.

Almost every day we receive correspondence relative to these advancing costs. As an instance a recent letter advising that a staple work garment which is being retailed at 75 cents, would now be worth 94 cents, on futures in wholesale quantities, same being subject to confirmation by wire as supplies were limited at any cost.

## Store News

Spring stocks are beginning to arrive, just received a big shipment of Stetson Hats and Society Brand Clothes.

Our salesmen always give them a try on and a critical once over when they first come in and they all admired them very much. Its a trifle early to elaborate on them now but later when we're to tell you about them you'll enthuse just as we have when they first arrived.

# You Will Still Find

A good many desirable long 52 inch convertible Collar Overcoats, good fabrics and colors. Also Black and Grey Shades, regular Standard Style 46 inch Coats.

A few Balmaccan Coats in neat, fancy patterns—splendid values  
\$10 \$15 \$19.50

If you need a suit be wise and buy now. Staple Suits, suitable shades and weights for the season, \$10, \$17, \$20.
